Possibilities are endless when people use chocolate

FROM PAGE 11

waxed paper-lined baking sheet. For a curled leaf effect, cut paper towel role in half lengthwise and set leaves inside, chocolate side up.

Chill until set, about 15 minutes. Hold stem to peel off chocolate.

**DIPPING**

Partially melt chocolate on medium power in the microwave, remove and stir until smooth. To keep chocolate at the proper temperature for dipping, set the bowl of melted chocolate over a pan of warm water, about 30C.

Work quickly making sure the melted chocolate maintains an even warm temperature. Stir the chocolate during dipping to maintain an even temperature throughout. It assures a rich, glossy coating.

Work in a cool place. Dip fruits, nuts or candies and place on waxed paper-lined baking sheet. Chill. Store in refrigerator.

PHOTO/BAKER'S CHOCOLATE

Sensational chocolate mousse and meringue torte is easy to prepare. The recipe can be found on page 14.

**GLAZING**

For a plain chocolate glaze with no additions, partially melt chocolate on medium power in the microwave, remove and stir until smooth. Spread over dessert immediately. Tap the pan on the counter to distribute the glaze smoothly, or zigzag a knife through the chocolate to create your own pattern.

**The Corner House**
