407 ETR

NOTICE OF ENVIRONMENTAL SUBMISSION ADDENDA HIGHWAY 407 ETR EAST PARTIAL EXTENSION MARKHAM ROAD TO HIGHWAY 7 EAST OF BROCK ROAD

The 407 ETR Concession Company Limited (407 ETR) is the private sector entity which has the obligation to develop, design, build, operate, maintain, repair and toll Highway 407 from the Queen Elizabeth Way in the City of Burlington to Highway 7 east of Brock Road in the Town of Pickering. The East Partial Extension includes the segment of the highway between Highway 48 and Highway 7 east of Brock Road. The initial stage of the East Partial Extension project involves construction of a 4-lane toll highway easterly from Highway 48, with transition to a 4-lane arterial road facility from west of Brock Road to Highway 7 east of Brock Road by August 2001 (please see accompanying key plan).

In accordance with the Conditions of Approval for Highway 407/Transitway (Markham Road Easterly to Highway 7 East of Brock Road) specified under the *Environmental Assessment Act* (Order-in-Council No. 1704/98), a series of nine (9) Design and Construction Reports (DCRs) were prepared and submitted to the Ministry of the Environment (MOE) for placement in the Public Record and are available for review at MOE, Central Regional Office, 5775 Yonge Street, 8th Floor, Toronto, Ontario M2M 4J1. A copy of the documentation is available at the Markham Community Library, 6031 Highway 7, Markham and Pickering Public Library Whitevale Branch, 475 Whitevale Road (east of Altona Road), Pickering. Addenda have been prepared for two of the DCRs to address modifications or additions to the design. These are: DCR ES1A - Rouge River Bridge and Stormwater Management (July, 1999), and DCR ES1B - Little Rouge Creek Bridge and Little Rouge Creek Tributary Culvert (July, 1999). The Addenda for DCR ES1A and DCR ES1B are being submitted for review to the MOE and are available for public review at the MOE, Central Regional Office and the local municipal public libraries (addresses as noted above).

The public review period will terminate 30 days following placement of these notices, after which 407 ETR may start construction, subject to receiving all other required approvals, permits and authorizations. 407 ETR will continue to screen the components of the project during their design for significant new concerns and to ensure that the project progresses in compliance with the commitments made in the Environmental Assessment, the MOE Conditions of Approval and the DCRs.

Please direct any comments on DCR ES1A Addendum and DCR ES1B Addendum by January 16, 2000 to:

Poor service spells low grades for 'overburdened' hospitals

From page 1

faction and the busier the hospital, the more one can expect people will vent," he said.

But it may be tough to decipher exactly who provides the best care, given the complexity of the report card devised by the OHA.

Carriere says he hopes people who see the survey results will realize that hospitals in the growing 905 areas need financial help from the province to better cope with the demands placed on their facilities.

"In our hospital, if we're going to do better we need more resources. I hope the questionnaire sends that message."

Hospitals welcome the report card process, Carriere said, but he wonders whether taxpayers will be able to fully understand what it all means when results are released today.

"It's a good thing to provide consumers with the information related to the quality of an organization, but the problem is, is there enough information out there so we have an informed consumer in the true sense of the term?" said Carriere.

Deliver your Santa letters to us

It's that time of year when children are sending their wish lists to Santa Claus.

We want to help deliver their messages and we'll publish as many of the letters as possible before the big day.

Please have your child write to:
