Occupational Therapist

In this part-time temporary role (until June 2000) within the Paediatric Developmental Treatment Centre, you will join a multidisciplinary treatment and education team in treating pre-school children, from birth to age six. This integrated treatment program is in a nursery setting, that allows for continued care for those children whose developmental needs are primarily communication. You must be registered with the College of Occupational Therapists of Ontario and, ideally, have experience working with developmentally challenged pre-school children.

Registered Respiratory Care Practitioner

As a part-time temporary or full-time temporary RRCP, (until June 2000) you will provide patient care to cardiac and respiratory patients. Your proficiency with related technology will enable you to carry out ECG, pulmonary function, oxygen prescription, ventilation of both neonatal and adult patients, and non-invasive vascular testing. You must have completed a recognized Respiratory Therapy Program, and be currently registered with the College of Respiratory Therapists and the Canadian Society of Respiratory Therapists. Your 1 year of post-graduate experience in a hospital setting is coupled with demonstrated skills in working with adults and neonates and, ideally, current BCLS, NRP and paediatric experience.

Speech Language Pathologist

In this temporary, full-time role (March to September), you will join the York Region Pre-school Speech and Language Program, Keswick location, to co-ordinate a community-based speech and language service for pre-school children. You will be responsible for assessing and treating a variety of disorders, counselling patients and families, and designing and providing education programs.
