spring: quick turnaround for custom-made blinds that are ready to install in 3 to 5 days, and a

breathtaking array of custom-made fabrics and materials, product styles, colours and patterns for any type of window treatment.

What are the hot trends in window treatments these days?

"The days of off-white and white mini-blinds are gone," says Rosmarie D'Atri, store manager at Blinds To Go in Markham.

"Consumers are now looking for more natural-looking products like wood and metals and are not

afraid to use bold colours and interesting prints."

A visit to Blinds To Go reveals a veritable showcase of stylish window dressings on display right inside the store. No more flipping through decorating books to find that elusive pattern. Trained staff are available anytime to answer questions or to address your specific window dressing needs.

Another popular trend in window dressing, according to Geraldine Liu, Marketing

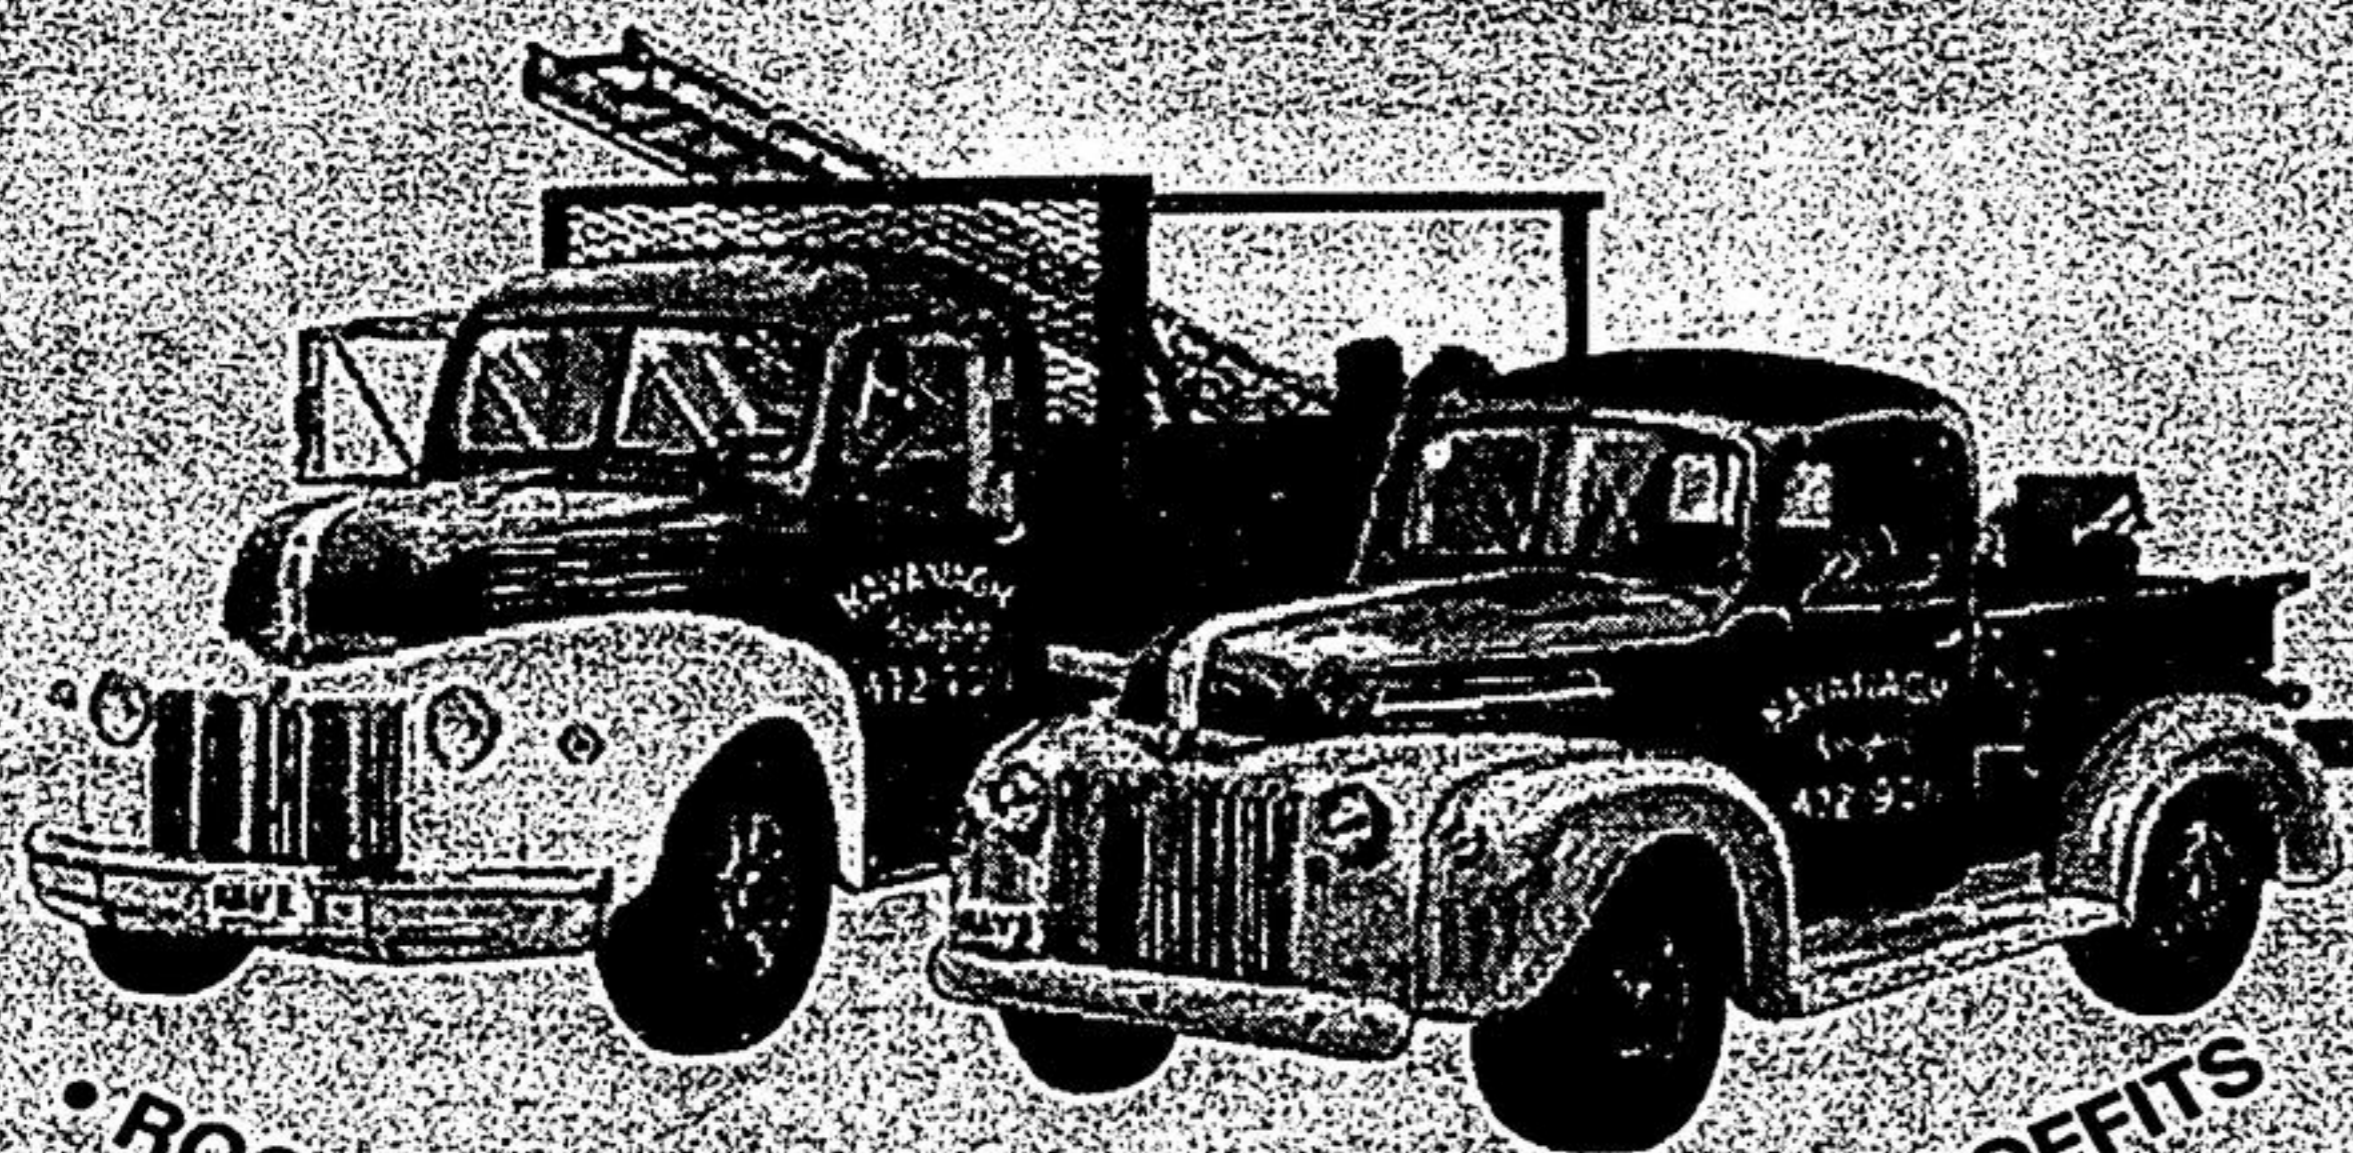

Manager at Blinds To Go, is the "new textured or engraved vinyl blinds that give the look and feel of fabric. These vertical blinds are ideal to achieve a softer look for your patio doors in your dining or living rooms," says Ms. Liu.
