it's about **Our People**
That's what makes us different. We wouldn't be where we are today without people like you and we remember that. Shaw is a fast moving company in a technically advanced world, but we still have values. We care about our employees like we care about our families. That's just the way it works. That's cool. That's Shaw.

NETWORK TECHNICIANS
RICHMOND HILL, ON
We have exciting opportunities available. We are seeking individuals to install, test and maintain telecom services and IP networks. Words like SONET, ATM, Ethernet, LAN switches and routers are part of your life and you are ready to use your skills to support our national, high-speed backbone network. You will also install and test circuits.
As a graduate of a post-secondary institute with a degree or diploma in electronics with three years of experience in a related field, you recognize the importance of well-maintained networks. Your excellent customer service skills complemented by your strong communication ability position you as an ideal candidate. You are also able to work flexible hours and travel within the region.

UNIX SYSTEM ADMINISTRATOR
RICHMOND HILL, ON
Here's your chance to take your experience with UNIX System Administration to oversee the operational administration duties of various servers associated with the High Speed Internet Service on the Shaw Regional Data Center (RDC). You will monitor the Data Center operation, perform near-term capacity planning and upgrades, and work closely with Engineering on long-term planning. Performing advanced troubleshooting on SUN hardware platforms, Solaris operating systems and ISP application software is a major component of this key position.
Your System Administrator Certification along with your five+ years of experience position you well for this role. Your solid understanding of UNIX programming languages, SUN Cluster software and architecture, DNS, DHCP, Mail and news systems is complemented by your ability to thrive in a rapid-paced, dynamic environment. Your team player attitude will contribute to the Data Center's success as you work with the Technical Operations Center personnel on server-related issues, and co-ordinate with other regional Systems Administrators and Corporate Engineering.
A positive, friendly manner and customer service approach will enable you to deal with challenging situations with empathy and sincerity.
In return, Shaw offers a challenging opportunity for professional and personal advancement in a progressive work environment. Please send your resume, in confidence, by March 17, 2000, to: Engineering Department, Shaw Cable Systems, 244 Newkirk Road, Richmond Hill, ON L4C 3S5. Fax: (905) 780-7110.
Shaw encourages applications from qualified women, men, aboriginal peoples, visible minorities, and persons with disabilities. We thank all applicants for their interest; however, only selected candidates will be contacted. No telephone calls or agencies, please.
