

New You

Spring is in the "hair" at Headlines

Sharron Brazier was feeling a bit adventuresome when she visited Headlines Hair Studio & Esthetique last week. She knew that she wanted to create a fresh spring look for herself, but was uncertain how to proceed.

"I wanted a look that made me feel good about myself," says Sharron, a Stouffville resident. "I also wanted something manageable and modern looking."

The first thing that owner/senior stylist Mark Galati and advanced stylist Patrick Hupe did was consult with Sharron to make her feel as comfortable as possible. They explained in detail what they proposed to do with her makeover and answered any questions she had.

Sharron had thick, naturally wavy hair with graying roots. Patrick Hupe decided to give Sharron some texture and dimension with a natural medium-to-light-brown base to cover the gray and to neutralize any warm tones from previous colouring.

"Next we introduced some light blond highlights and deepened the colour with sunset copper lowlights," says Patrick. "This was done to provide a multi-dimensional and textured look."

Once the colouring was complete, Mark took over with the cut. "We wanted to create fullness through the crown area," he says. "By keeping the sides and back shorter, we achieved a very contoured look. We also left some length through the bang area which emphasized her cheekbones."

The complete makeover took approximately 2 1/2 hours, but to Sharron it was time well spent. "This makeover achieved everything that I had hoped for and more," says Sharron, who leads an active lifestyle. She has worked in the real estate business for 35 years and also participates in a local theatre group at the Stouffville High School. "I felt like a new woman," says Sharron. "Even some of my friends commented on how young I looked after the makeover."

From start to finish, Sharron's experience at Headlines Hair Studio & Esthetique was both energizing and fun. "The staff at Headlines were wonderful," she says. "They were professional and courteous at all times with both myself and other customers. I would highly recommend them to anyone who wants to refresh their look."

Headlines Hair Studio & Esthetique offers a full range of hair styling and colouring, esthetic services and massage therapy. Located in the old public library, the company has been in business for 14 years and currently employs seven full-time stylists, two junior therapists, an esthetician, and a massage therapist.

Both Mark and Patrick are also great sources of information about hair styling and colouring. They are frequently employed by leading hair product companies to conduct educational seminars across Canada.

"The bottom line about our business is that we want to make people feel good about themselves," says Mark. "We do it in a fun, open and relaxed atmosphere."

In Sharron's case, they succeeded brilliantly.

Headlines Hair Studio & Esthetique is located at 6328 Main Street in Stouffville. They can be contacted at (905) 642-0336 for an appointment or consultation.
