

Renaissance at Swan Lake now under construction

The Renaissance at Swan Lake—Markham's newest seniors community is now under construction.

The Renaissance at Swan Lake will be a 120 suite 'Hotel Inspired' Residence offering a wide range of services and amenities to enhance lifestyle choices. The monthly rental fees at the Renaissance at Swan Lake include accommodation, fine dining, utilities, housekeeping, underground parking and laundry services.

Julie Cassidy, Marketing Manager for the Renaissance at Swan Lake says: "There is a real need in York Region and surrounding area for upscale accommodation and services and we are finding that people are coming to see us from not only Markham, but Scarborough, Don Mills and the city. It seems that now word has filtered out into the community that this lovely residence is well underway people are excited and want to be a part of this lifestyle." Cassidy adds, "The added bonus of having the 16 acre Swan Lake and surrounding 15 acres of park right at the doorstep of our building makes this a natural choice."

ISHTAR Seniors Communities and The Daniels Corporation have joined together to build the Renaissance at Swan Lake, the first of 40 such Renaissance buildings. Currently ISHTAR and Daniels are working on Renaissance projects in Woodbridge, Etobicoke and Mississauga, which will all open for pre-leasing this year.

The Renaissance at Swan Lake is scheduled for occupancy in October of this year. This innovative retirement community will include unique features such as an English Pub, ISHTAR's Wellness and Vitality Centre and Healthy Living Clinic where residents can access a wide range of specialists and services from doctors to spa and beauty professionals.

Monthly all-inclusive rental rates start at just \$2400.00 a month. Julie invites you to visit the presentation centre and enjoy a cup of tea and hear all about this exciting community. Call her at 905-201-6058, or visit at 6360 16th Avenue (2nd light east of Hwy. #48, on the north side of 16th Avenue in Markham
