## Mairi Vasil Design

The perfect paint colour can enhance the appearance of any room, but selecting the perfect colour isn't always easy. In fact, many people are overwhelmed by the dozens of paint colours and styles available.

If you don't want to waste time or money making the wrong choice, then Mairi Vasil would like to help. Mairi has an extensive background in home decorating - especially working with colours and fabrics in all types of homes. Whether it's a dining room or a bathroom, a guestroom or a bedroom, a professional consultation with Mairi Vasil can provide a fresh perspective on your paint project that will enhance your décor.

Often Mairi is told by clients that, while they may not have considered the colours she selected, they are thrilled with the results. Mairi has an impeccable eye for detail and offers paint suggestions on a wide range of paint colours and techniques.

Mairi advises choosing paint colours at home, as opposed to the store. This enables homeowners to compare the desired colours with other design elements in the home, during daylight and evening.

Many new "open concept" homes are being built around town these days, which can be a challenge in terms of coordinating colours. Knowing where to start and stop a colour is important in giving your home a professional look. "Stepping" a colour is a technique that provides different shades of the same colour and is useful when more than one room is visible.

Mairi will help you to choose colours by taking into consideration decorative features and existing paint schemes. Her professional size chips help you to see what a given colour will look like and she will leave sample sheets of your choices. Suggestions for window treatments and furniture placements are also made during the consultation.

To explore the colour possibilities in your home, call MAIRI VASIL DESIGN at (905) 415-0218.

## Discovering the Fountain of Youth at the Laser Care Clinic

Ponce de Leon searched in vain for the mythical fountain of youth, but it appears that Dr. Chaim Goldberg in Scarborough may have found it. Dr. Goldberg transforms aging faces into younger, rejuvenated sculptures that would make Michaelangelo blush.

At the Laser Care Clinic in Scarborough at 2235 Kennedy Road, Dr. Goldberg employs brilliantly effective laser technology to resurface skin. This remarkably affordable process replaces traditional cosmetic surgery and is non-invasive. Recovery time is much faster than surgery and

the process is completely safe.

Have you ever wanted to remove unsightly acne scars, smooth out wrinkles, lift sagging eyelids or remove eye bags? Dr. Goldberg explains that "younger-looking, smoother, youthful skin increases self-confidence and since

increased life expectancy means we will live longer, many people want to also look youthful longer."

All procedures are done right on premises in a very welcoming, pleasant, spa-type atmosphere, where sensitivity to clients is of paramount importance. Treatments are not limited to women as many of Dr. Goldberg's patients are men who want to look younger.

If you'd like to hear more, book a consultation and find out more about this rejuvenating process, just call (416) 754-9444 and ask for LIL.
