

Grand Opening Markham

Canada's biggest golf store just

Anatomy of a golf superstore.

Since Canada's golf superstore is opening its sixth location today in Markham, we thought we'd start out by offering our neighbours a grand tour—to be taken in the comfort of your imagination.

The instant you walk through our doors, you know you've entered a special land. It's an exotic domain where golfers of any skill level, obsession level (and non-golfers too), can feel completely at home.

Go ahead, putter around

In-store putting green

To the right, you'll notice our spacious putting green, with its generous selection of sample putters placed conveniently around the perimeter. No need to ask, just select one that looks interesting and start putting. Try out a few others and take your sweet time. Got any questions? In-store pros (yes, real CPGA pros, fresh off the course) are discretely on hand to help.

Don't just stand there, swing something

Entering our woods & irons department, again you're overwhelmed by the vast selection. All the great brands, all the latest technologies, all on the racks. And of course you're cordially invited to fire off more than a few at our in-store driving range or virtual golf course.

Put it on

Apparel department

By now you'll have noticed a substantial ladies' & men's apparel and footwear section. Quality rules here. But wait—how about those low prices? Feel free to try something on and don't be shy to ask for a hand. (Note the conspicuous scarcity of plaid.)

Gripping, shafting and related delights — The Golf Town Pro Shop

Just like any respectable golf club, Golf Town's Pro Shop craftsmen perform precision alterations and fine-tuning on existing or new clubs. Re-shafting, re-gripping, changing your offset, club repair and custom club fitting are all available at this shop within a shop.
