

Make sure you have a vet willing to treat exotic pets

From page 16.

in residential zones cannot keep or raise exotic animals or livestock has been in effect since 1979.

"Although we don't take a pro-active approach to the bylaw, it is, in fact, a violation and if we receive a complaint we will act on it," said Susan Plamondon, director of legal services for the Town of Newmarket.

"If we don't know about it (the pets), we can't do anything about it."

The size of the pet is also very important. The bigger the animal the more space and exercise it will need.

Is the food source needed by your pet readily available and can you afford to provide it? If there are children in the house, is the pet compatible?

Many animals, like Felicia's chinchilla, don't get along with children or other animals.

You also need to ensure your local vet is willing and able to treat your pet should the need arise.

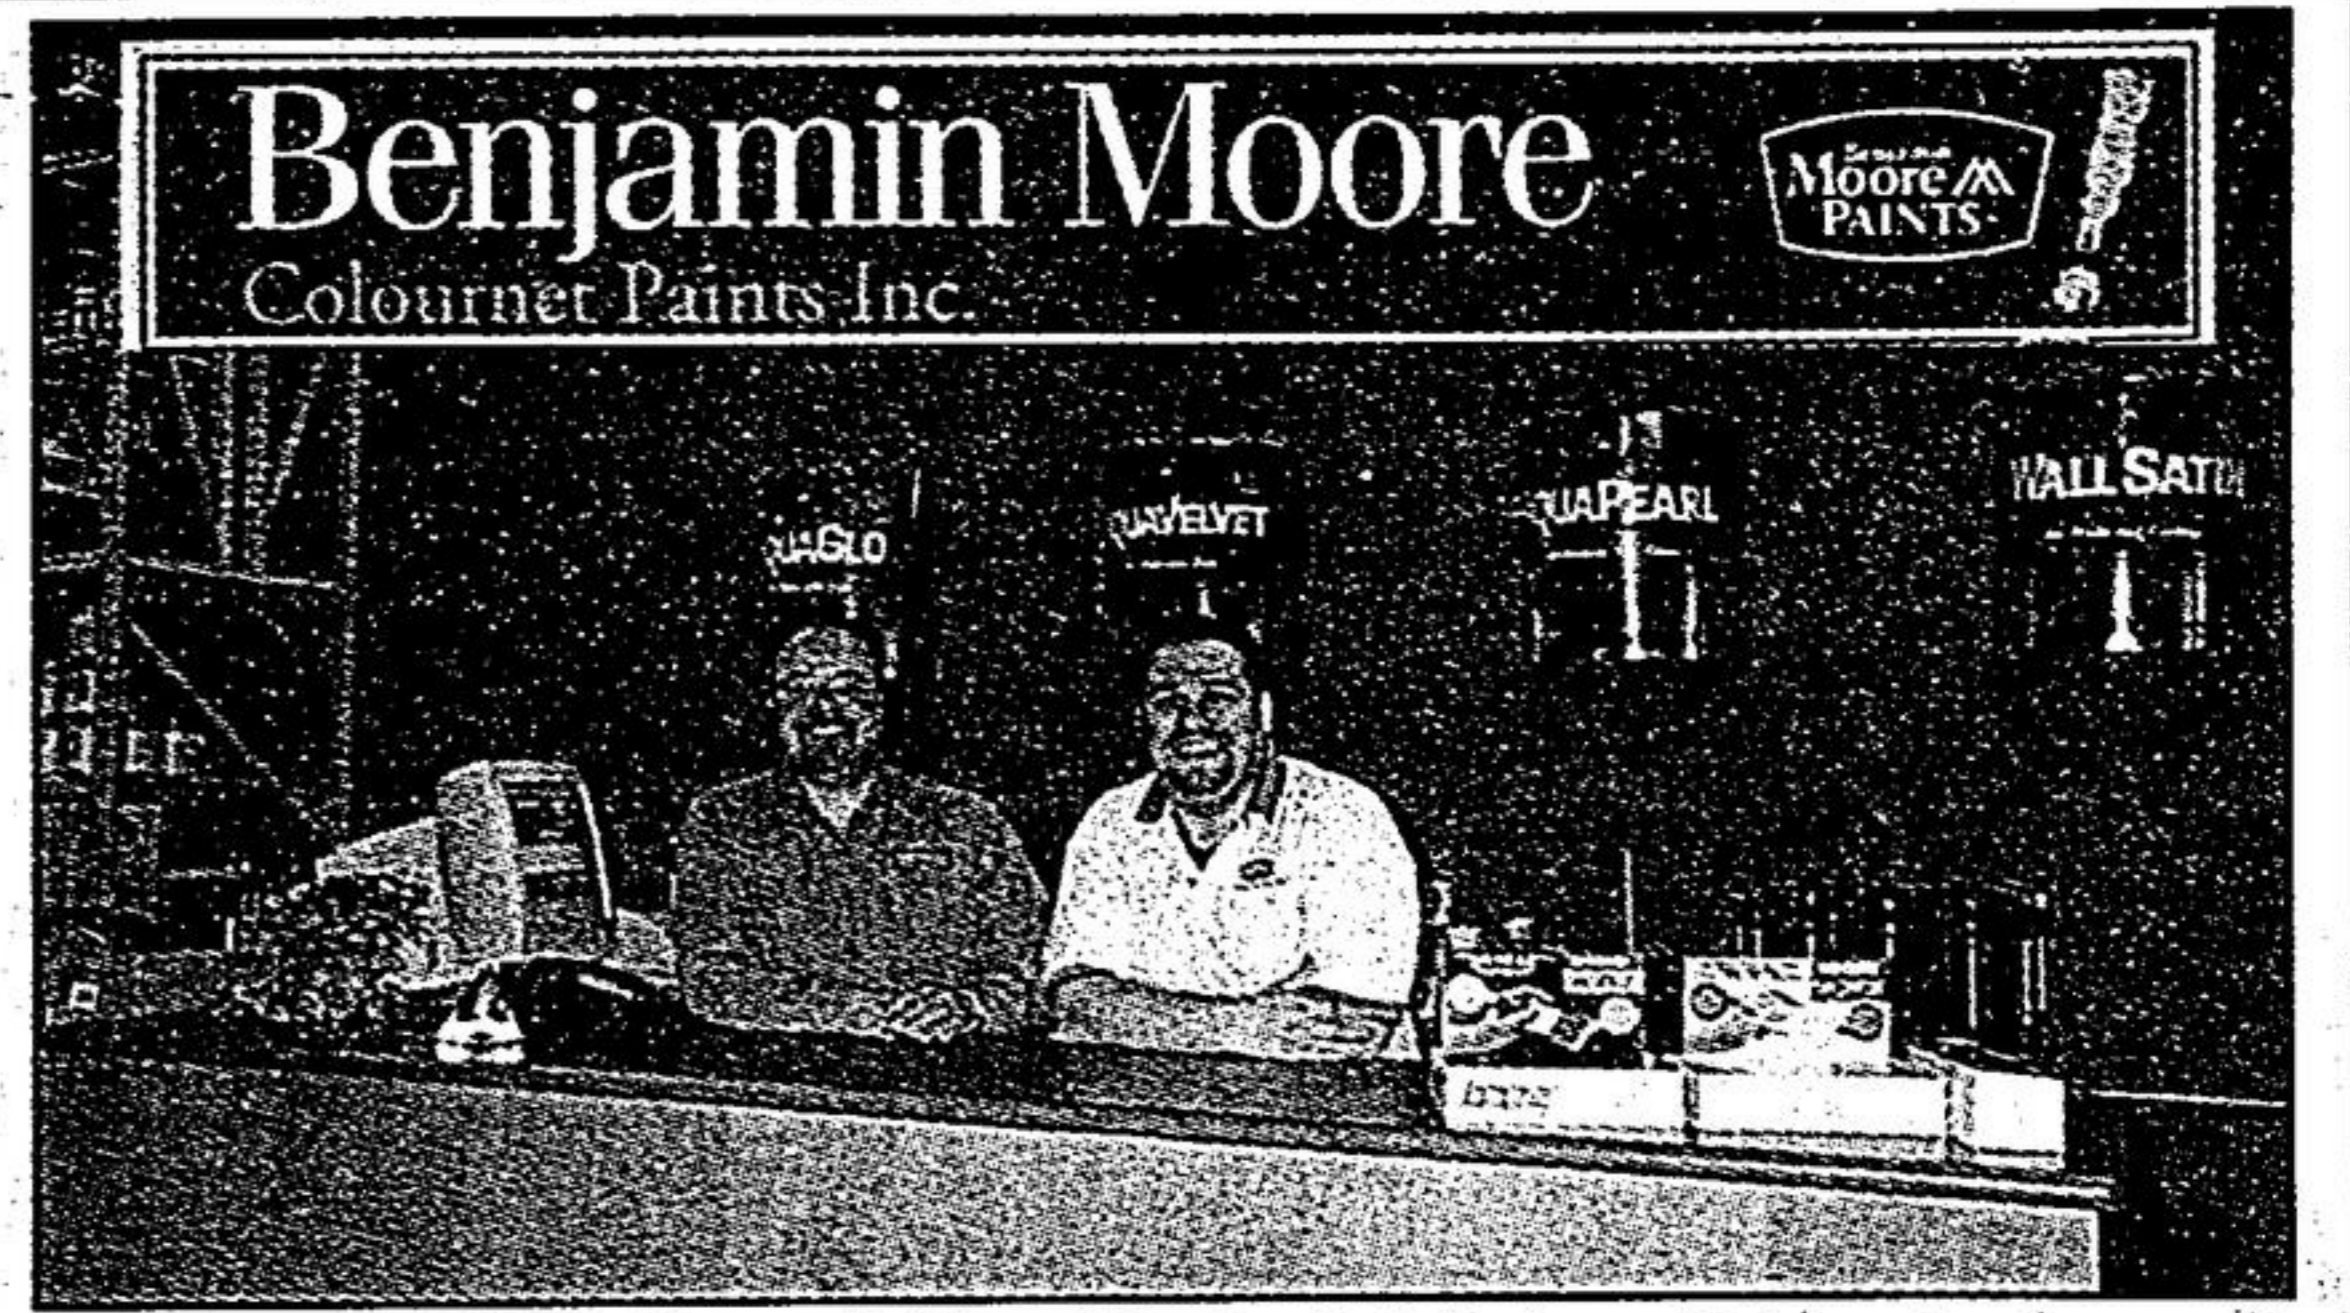

Researching the source of

your pet can ensure it reaches its full pet potential.

A reputable breeder will ensure their animals are well cared for and socialized from a young age.

Exotic pets can bring joy into the lives of their owners and can be fascinating and beautiful to watch.

Some are even fun to play with. With proper education and research, along with realistic expectations of your chosen pet, the relationship can be a very rewarding one.

Luciano and Adriano Mignardi, owners of Colouret Paints, invite you to their new Benjamin Moore store, located at 170 Esna Park Drive, Unit #6 in Markham. Come on by and view the new colour studio, as introduced by Colouret on Breakfast Television. 905-470-1099
