

# Teen injured in fire still in serious condition

The fire in which a Markham teenager was critically injured March 13 is still under investigation by the Ontario Fire Marshall's Office.

York Regional Police this week reported the condition of the 17-year-old girl — who firefighters had rescued unconscious from her Laguna Crescent home in Milliken — had improved at Mount Sinai Hospital in Toronto.

But she was still listed as serious and her recovery is complicated by pneumonia.

"She's still fighting for her life," Det. Keith Freemantle said Tuesday.

## Tactical unit ends Raymerville standoff

Following a two-hour standoff on March 15, York Regional Police deployed its Emergency Task Unit to remove a Markham teen from a house.

Police said the situation developed from a domestic dispute in which damage was sustained to a home on Foundry Crescent in the Raymerville area.

An 18-year-old male was arrested at 4:40 a.m. and was charged with mischief to property over \$5,000 and possession of a weapon for a dangerous purpose.

# CALIFORNIA STRAWBERRIES

When we buy berries, our staff 'disassembles' the pints and checks through them, then reassembles them in over-flowing pints of great berries. The result is (a) you seldom get a bad berry (b) you get lots of good ones — and that they're from California means that they have a flavour edge over those from Florida Heaping pints!

## FRESH SALMON STEAKS

We use Jail Island farmed Atlantic Salmon only. It arrives real fresh and gives you a lot of menu planning leeway because it doesn't have to be used 'right away.'

When we sell Salmon Steak, you'll also notice that we cut the side portions shorter because they don't cook well even for the most capable chef.

We'll have three styles to choose from:

- Au naturel
- With zesty lemon & dill
- Teriyaki

Delicious stuff! Reg. \$9.95 lb. **25% OFF THIS WEEK**

## HUGE HYDRANGEAS

They're great this year! To recap, we have 10" pots of blues in both medium & large, 10" pinks and 10" whites.

— AND —  
 Some really great 8" & 6" azaleas in both pink and reds!

## WILD BLUEBERRY SAUSAGES

If you're wondering if the 'wild' is about the berries or the sausages, you'd be right on both accounts.

It's a great item. Reg. \$3.99 lb. **25% OFF THIS WEEK**

## OUR PASTA SAUCES!

This week we'll be featuring our range of frozen pasta sauces. Included will be:

- Pesto Sauce
- Meaty Spaghetti Sauce
- Sundried Tomato & Basil Sauce
- Creamy Tomato Sauce
- Alfredo Sauce
- Gorgonzola Alfredo Sauce
- Red Clam Sauce
- White Clam Sauce

These are all prepared in the same way you would at home if you had the time! Varies in size and priced **25% OFF THIS WEEK**

## RUSTICHELLA DE'ABRUZZO PASTA

Pasta is like wine in that there are so many factors which can have an effect on the finished product and, as with wine, when all of the most favourable conditions are present truly great pasta is the result.

Such is the case with Rustichella Pasta. It comes from the Abruzzo region which is home to the most celebrated pasta in Italy. It's a question of having the right air, the right water and the right wheat, add to this the utmost production care such as slow-drying, the use of local high-mineral spring water and the highest of the high grades of Durum Semolina Wheat and there you have it — the Romance Conté of Pastas!

Package sizes range from 500 g. to 1 kg. and prices range from \$3.99 to \$6.99 each, depending on the style of the particular pasta.

# WHY SHOULD YOU BUY OUR HAM?

To many people, ham is ham — if you've tried one, you've tried them all. That is unless you are old enough to remember what ham was originally like before machines were invented. Machines? Yes, that's right. Nowadays, almost all hams (including spiral honey baked hams) are put through a process called 'tumbling'. It's like a giant dryer, except the opposite is the result. This machine boosts 'yield' which means hams grow in weight during this process — just read the 'protein added' part of the label to find out how much it has naturally 'grown'. The good part (for the manufacturer) is that (a) you have more ham to sell because they've all 'grown' and (b) all the little bits of pork can be put through this process as well because it glues it all together in the shape of a ham (\$1.99 lb. supermarket ham). The bad part (for the customer) is that gone for good is the texture, tenderness and flavour that made ham famous in the first place.

At our store, we make ham in the time-honoured, pre-mechanical way — by hand. Come pay us a visit — we'll restore your faith in ham!
