ATTENTION: Residents of York Region Giving to Charity... Shouldn't Carry This Much Risk!

York Regional Councillors will be voting on April 18th whether to further weaken the no-smoking by-law. Currently York Region bingo halls are allowed to have 25% of their space used as a designated smoking area.

But York Regional Councillors are being pressured by some operators to vote for a 100% increase of that space.

We say no way!

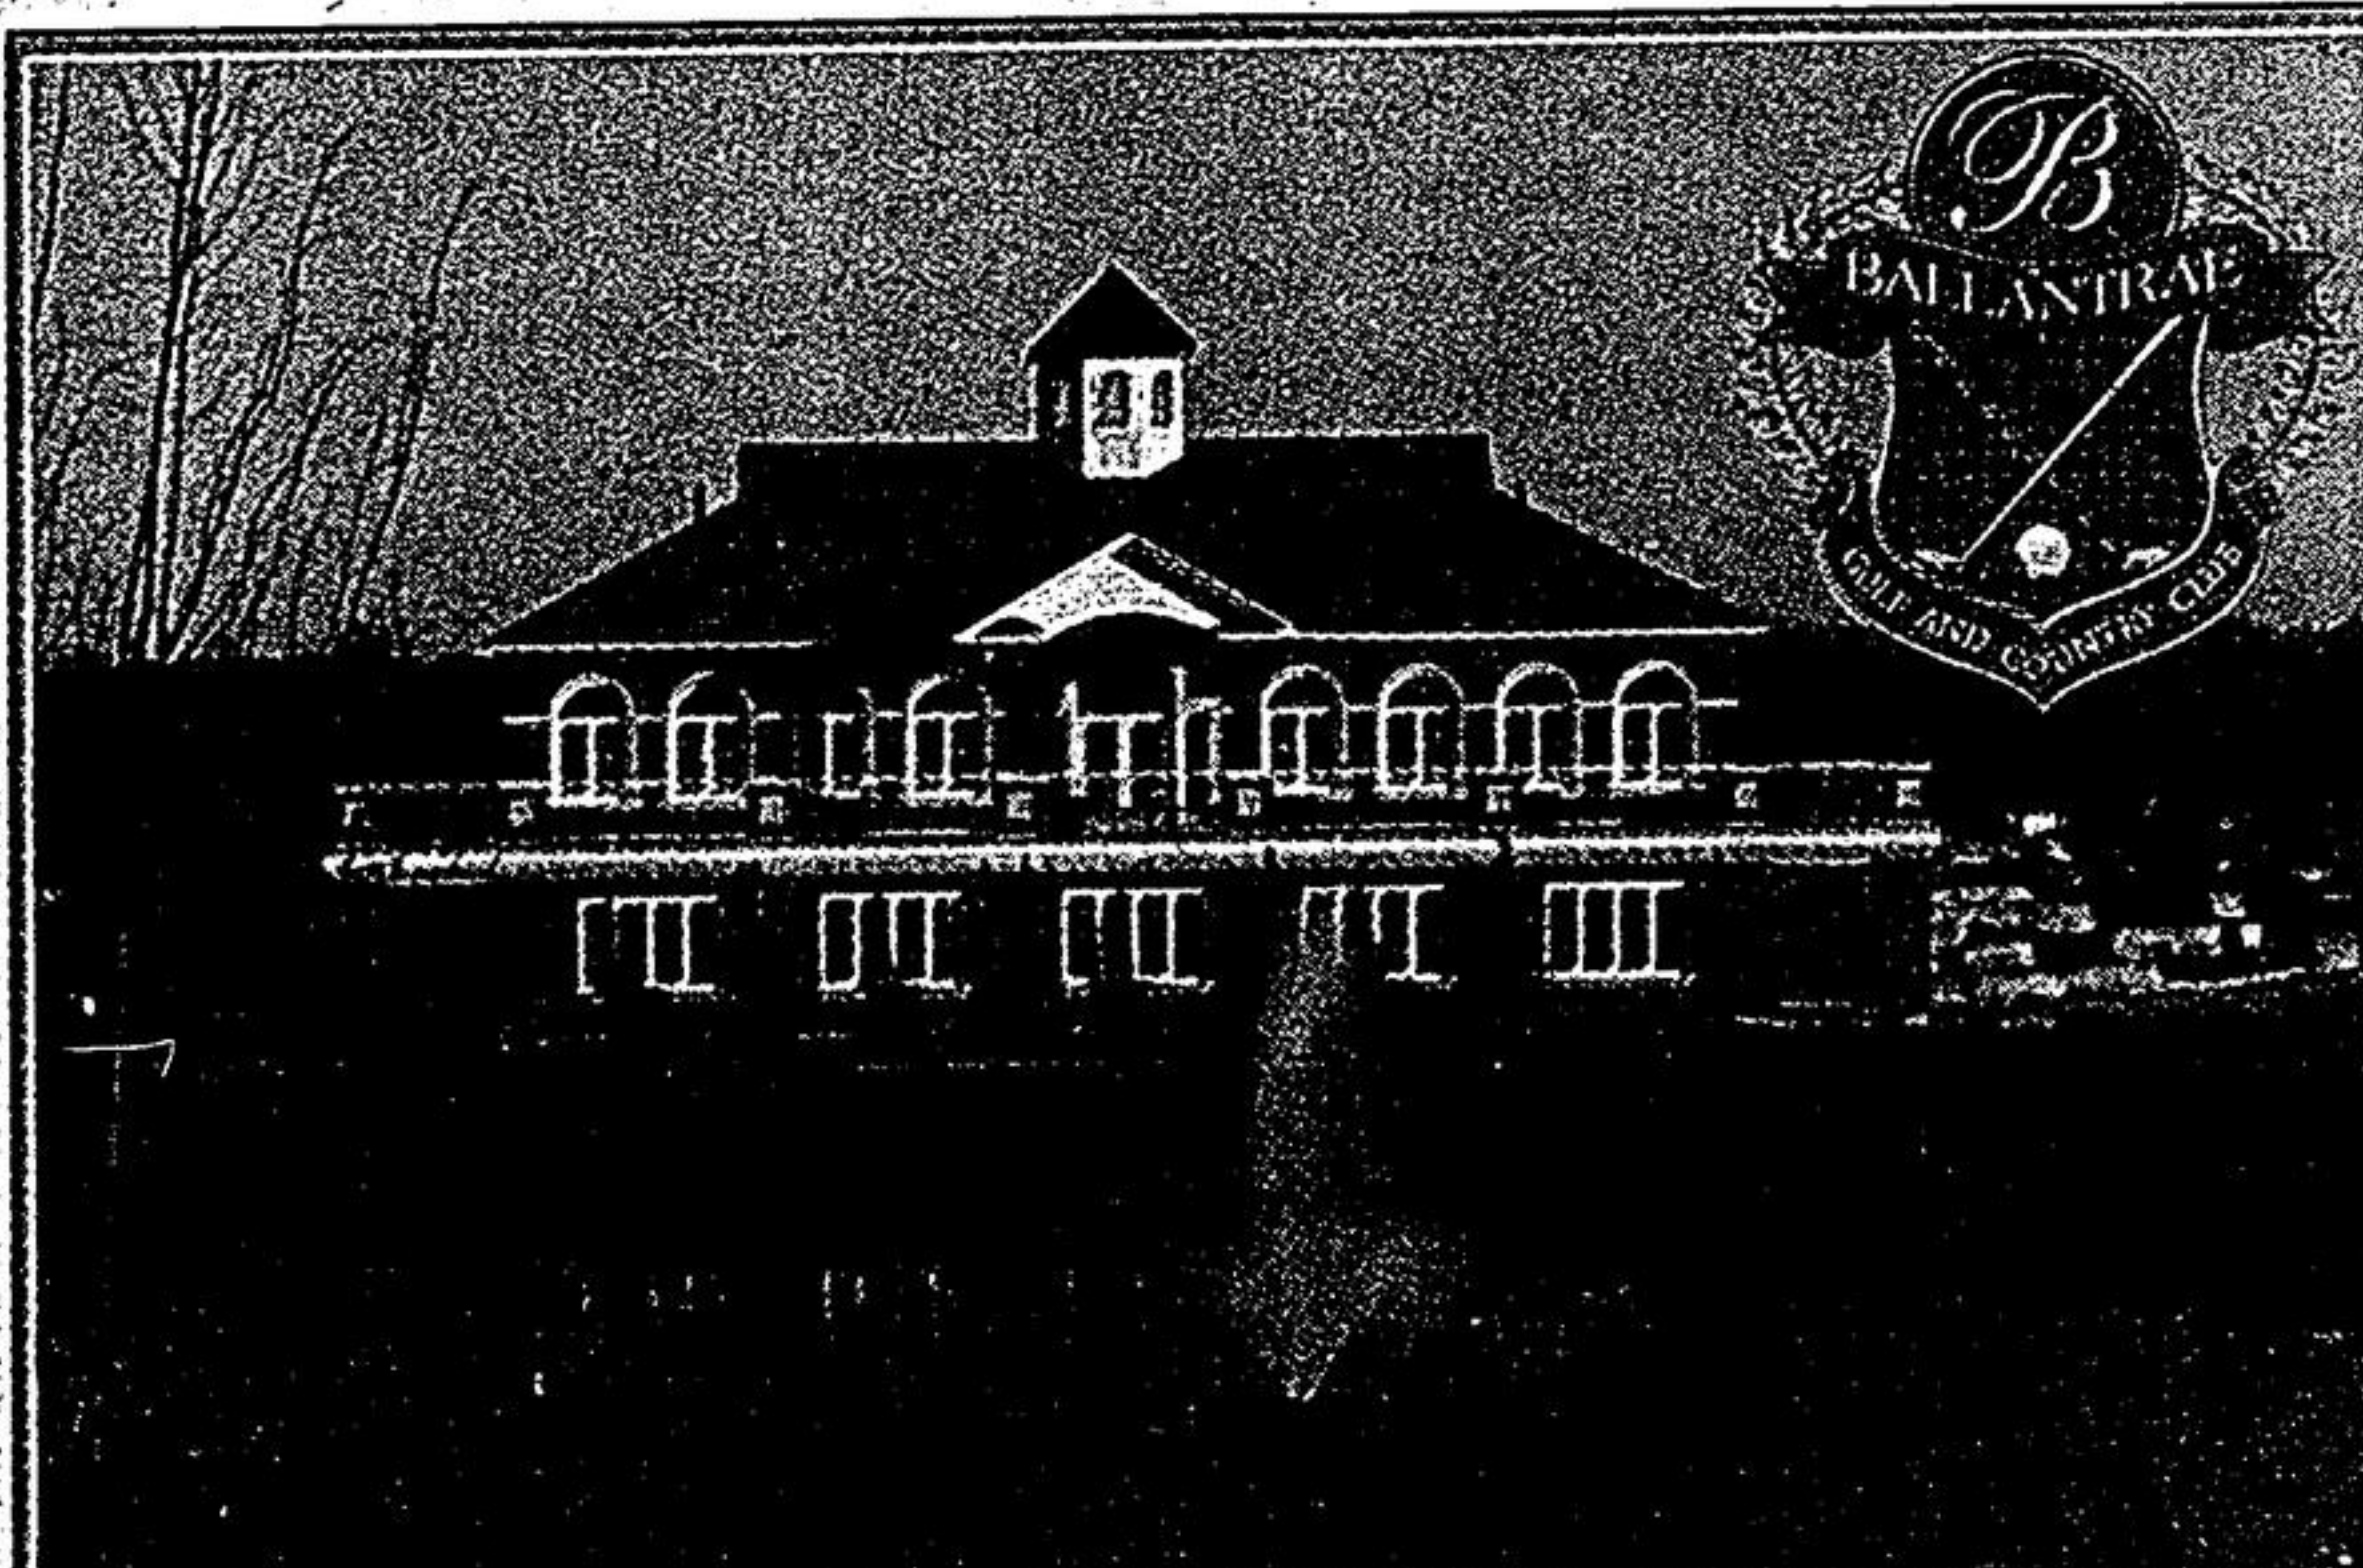

- If Council is pressured into compromising the health of bingo patrons and workers, it won't be long before the health of countless others in the hospitality and recreation sectors are also compromised.
- The dangers of being exposed to second-hand smoke are well known and documented by the Ontario Medical Association.
- Designated smoking rooms (DSRs) do not eliminate that danger. Invisible cancer-causing agents travel freely around doors and bypass ventilation systems. DSR's go against OMA recommendations.
- York Region's bingo staff and patrons deserve better.

Call you local Mayor now...before it's too late.

Let them know that any increase in second-hand smoke is too risky.
