GOLDEN LOOK

The setting sun lends a golden touch to a construction site on Hwy. 7 just east of Leslie Street in Markham Tuesday evening. Lots of building is going on in the area, both in Markham and adjacent Richmond Hill.

Keeping You in Power

The Electricity Market is Now Open to Competition.

Some things will change
You'll Have A Choice

In The Open Market, You'll Have Two Ways To Buy Electricity

Option 1: You can do nothing and Markham Hydro will buy power on your behalf from the competitive market and pass the costs through to you with no mark-up.

Option 2: You can purchase your electricity at a fixed rate from one of several licensed retailers.

In The Open Market

Your bill will be **fully unbundled** and costs shown as **Commodity, Distribution, Monthly Customer Charge, Non-Competitive Electricity Charges and Debt Retirement.**

Look in your next bill for a more detailed explanation.

Some things will not!!!

- Regardless of whom you buy your electrical energy from, Markham Hydro will still be there to deliver the same level of safe, secure and reliable electricity you've come to expect. We'll continue to respond to emergency interruptions and maintain the electrical distribution system.
- We'll still read your meters and calculate your bills, and we'll continue to supply your electricity commodity if you decide to stay with us.
- **Most importantly... we're still here to help.**

For more information on the Competitive Market

Visit our website at: www.markhamhydro.com

Feel free to contact our Customer Service Department at **905-477-3844**

Or Visit: Ontario Energy Board: www.oeb.gov.on.ca

The Ministry of Science and Technology: www.est.gov.on.ca

Electricity Distributors Association: www.eda-on.ca

You've trusted us in the **past.** You can count on us in the **future.**
