## Tool Junkie has it all

By **ROD URQUHART**  
Advertising Writer

Murali Nair had a dream — to open a unique tool shop for wood workers, after searching the globe for many antique tools.

The result — Tool Junkie — your supplier of woodworking machines and tools — located at 86 Ringwood Drive, Units 37/38, in Stouffville.

Tool Junkie is owned by Murali Nair and his

wife Deirdre Foley. As Murali explained, "I have antique tools that are very unique. There is no shop in Canada where you can walk in and buy quality antique tools."

He has them set up in attractive display cases in their own room at Tool Junkie. For example, he has a Stanley #1 Plane that he sells for \$2,000 Cdn., which would cost \$1,400 U.S. in the States.
