## Sherlase Clinic Specializing In Medical Esthetics

If you are looking for advanced esthetics and skin treatments, Sherlase Clinic specializes in these services. Laser hair removal is popular for both men and women and is here to stay, says Sheri Kurtz, owner of the Sherlase Clinic, Markham.

"People don't know all there is to know about laser hair removal and there's a lot of misinformation out there," she says. "We, at Sherlase, take pride in both informing and educating our clientele as to just what to expect when deciding on a laser hair removal plan that is best for them. Each person is different and we want you to be totally comfortable and know what to expect from the treatment plan recommended."

We can treat acne, pigmentation, combat sun damage, age spots, fine lines, enlarged pores and oily skin.

"Skin types, amount and location of hair, partially determine the treatment plan. Many Middle Eastern, Asian and dark skinned people have attained excellent results. Tanned people can also consider these laser treatments because the laser bypasses the epidermis and directly affects hair follicles."

Our skilled professionals keep current on the latest trends and developments in order to deliver the best care possible. We have planned information evenings to help educate our clients.

The clinic now offers a laser designed primarily to eliminate facial veins. This laser treats Rosacea and cherry angiomas and can be used with Sclerotherapy to treat some leg veins.

The Sherlase Clinic is located at the southeast corner of 16th Ave. and Markham Rd.

The Sherlase Clinic provides an extensive range of advanced esthetic services that enhance the body without surgery, such as Botox, facial peels, Restylane and Collagen injections.

It is open five days a week, closed Mondays and by appointment on Saturdays and in the evening Wednesdays.

Our consultations are at no charge. For more information call (905) 201-8005 or email sher.lase@on.aibn.com

## The Friendly Geek Offers Personalized Computer Support

Markham resident Neil Hooley has succeeded in doing what many of us strive for. He has remarkably transformed his favourite hobby into his own small business venture. The result is The Friendly Geek, a computer support company catering to both the home user and small businesses. Hooley provides his service personally, ensuring that each client's concern is properly addressed. This avoids the need for unnecessary and costly repeat calls. Recently securing a \$3000 grant from the provincial government, part of the Student Summer Company program, The Friendly Geek is your best source for computer service and advice.

Neil Hooley

The Friendly Geek will attend to nearly any computer-related problem or concern. Whether you need a virus removed from your PC, a website designed and maintained for your business or Internet sharing, Neil can provide the help you need. Of special interest to the small business owner is Neil's skill in establishing computer networks.

Computer Consultant and Web Designer  
Geek can save both frustration and valuable time.

For first time computer users, let Neil help you get the most from your investment and increase your productivity with personal training. For those that have recently acquired hardware such as a scanner or hard drive, Hooley can get your new hardware hooked up and answer any questions you may have. For those in the market for a new computer, The Friendly Geek can help you find the model that best suits your needs. These are just a few cases where one phone call to the Friendly

Neil has been learning, experimenting, and creating on computers since he was five years old. With fifteen years of experience under his belt, fixing computers for others seems to come naturally. "It's been great, since this is what I used to do for fun," adds Hooley, who now provides his expertise to the local community. Whatever your reason for calling Neil, he will provide the service you need with the quality and personal touch that only a local business can provide. Being a sole entrepreneur also ensures his services are provided at very competitive rates. The Friendly Geek is available daytime, evenings, and weekends to accommodate your needs. So make the call that will enhance your computer skills and get your small business off and running — call the Friendly Geek today.
