Burke's Restoration, of Newmarket, was the winner at the 2002 Consumers' Choice Award (CCA) for Fire Restoration; 5 years in a row in the Greater Toronto Area, and the top fire damage restoration company.

Owner Gary Burke received the Award at a televised banquet and presentations at the Stage West Theatre.

The Leslie St. total cleaning and restoration firm was chosen by consumers in a survey conducted by Market Facts. Marking its sixteenth year in Canada and its sixth in Toronto, the CCA is an important institution on the North American business scene. Winners are chosen by consumers through an independent and objective survey conducted by Market Facts.

Burke's can rebuild a project from the ground up. It has its own licensed carpenters, master painters, and provides complete construction services. Its expert staff do their own framing, drywall, finish carpentry, ceramic tile, hardwood flooring, basic roofing, windows, doors, siding and more. Steamatic's cleaning staff provides carpet and air duct cleaning, ultrasonic contents cleaning and complete in-home cleaning. For cleaning, its only sub trade is dry cleaning of clothes. Steamatic of Montreal pioneered new methods of using Ultrasonic cleaning tanks to clean home or office contents damaged by fire, smoke, water, etc. and these techniques are used by Burke's Steamatic. The Ultrasonic Machine will efficiently clean fine china and figurines, stuffed animals, silk flowers, skis, toys such as Lego blocks, health and beauty items and more. Burke's also has patented furniture restoration techniques and can dry clean area rugs, drapes and delicate furniture on site.

Burke's covers an area: from Whitby in the east through Toronto to Brampton, and north as far as Barrie. It provides a 24-hour emergency service and for most emergency calls it can have a truck on location within an hour and a half.

Market Facts interviewed 1,550 people to determine the winners of the Consumers' Choice Awards. Of these 700 were consumers randomly chosen among the general public and 400 were top-ranking managers of small and medium-sized businesses counting 250 employees or less, 225 general or construction contractors and 225 professionals in the automobile sector.
