

WAY NOW CLEAR FOR NEW MARKHAVEN

STAFF PHOTO/SJOERD WITTEVEEN

A worker checks out progress on the demolition of Markhaven nursing home's old facility on Parkway Avenue in Markham. The old structure is now gone and a new, \$10 million, 68,000-square-foot building is under construction. Completion could happen as early as the end of 2003.

A Former Back Pain Sufferer Speaks Out...

"I Got Rid Of My Back Pain Forever! Call The Toll-Free, 24 Hour Low Back Pain Recorded Message Hotline And I'll Reveal My Secret For Free!"

My back pain was horrible! I tried everything imaginable to get rid of it but nothing worked. I tried Aspirin at first. But it didn't work. It hurt so bad I couldn't even pick up my children without wincing from the pain. I went to my doctor but he told me I would just have to live with the pain and take muscle relaxers and painkillers whenever my pain got bad. But it only got worse! I was about to talk about surgery until I stumbled upon a free report offered in my paper which revealed to me the truth about my back pain and the best proven way to get rid of it forever! I admit, I didn't believe it at all, but I ordered the free report and I haven't had one attack of pain in 6 months! If you're even remotely curious about how to end your suffering, call toll-free 1-800-479-3176 and listen to the 24 hr. recorded message to order your own copy of this remarkable report. Don't live another day in pain. Call Now! It's Free!

Wireless inventor gets local honour

BY LAURA NELLES
Special

Markham Council is naming a street after wireless inventor Guglielmo Marconi, in honour of a visit by his daughter.

Last week, Princess Elettra Marconi was welcomed by the town during a reception at the Markham Civic Centre.

The Princess is in Canada to honour the 100th anniversary of the first wireless trans-Atlantic communication.

"We're pleased Princess Elettra is meeting with our community leaders to share her enthusiasm for her father's work," said Deputy Mayor Frank Scarpitti.

In 1899, Guglielmo Marconi established wireless communication between France and England across the English Channel.

Two years later he transmitted the first signal across the Atlantic Ocean, from England to St. John's, Nfld., a distance of 3,700 kilometres. In 1909, he received the Nobel Prize for Physics.

Princess Elettra, who acquired her title on her marriage has spent much of her life talking about her father's accomplishments.

The street is going to be in the new Markham Centre development on the south side of Hwy. 7 between Kennedy Road and Warden Avenue. Construction on the Markham Centre begins next spring.
