## Markham Ceramic Tile offers quality flooring products at competitive prices

In the past five years, Markham Ceramic Tile has been a premier supplier of quality flooring products to homeowners, contractors and interior designers. The company's excellent reputation can be attributed to the philosophy shared by the three Moncada brothers (John, Joe and Sam) who own and operate this thriving business.

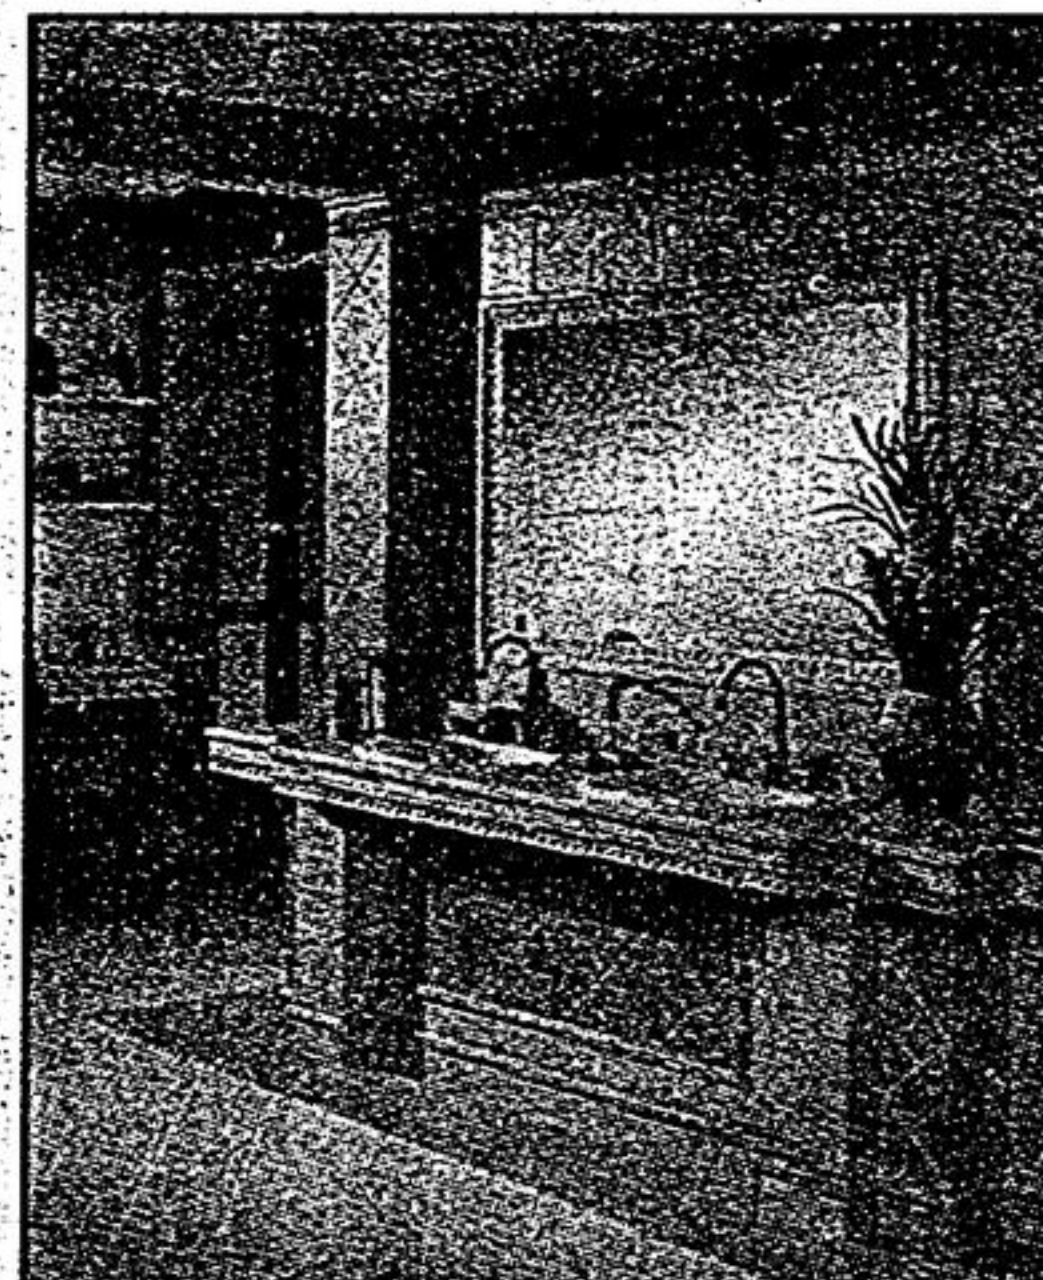

The company philosophy is founded on the principles of dedication, loyalty, professionalism and friendly service. "We pride ourselves on offering the best flooring products and service at competitive prices," says John. "No matter how large or small a job, we assist customers from start to finish to ensure their complete satisfaction."

Markham Ceramic Tile is a one-stop tile and marble fabricator that specializes in the sale and installation of quality tiles and accessories. The company offers a unique range of tiles and natural stones (glass, porcelain, granite, limestone, slate, tumbled marble) for every need and taste to fit in any residential or commercial project.

Markham Ceramic Tile also offers a variety of custom stone work such as granite kitchen counter tops, vanity tops, fireplaces and furniture. Any new flooring or kitchen surface from Markham Ceramic Tile will look like new for years.

"Our approach is to make customers feel comfortable with our products and services," says Joe. "Whether you're looking to purchase tiles for a do-it-yourself project, or you require professional installation, we always go the extra mile to help our customers."

Browsing through the company's Markham showroom is encouraged - and so is shopping around to compare products. Although the Markham Ceramic Tile showroom is small, the selection of products is extensive, and the company's commitment to personal service is

unlimited. The staff is happy to explain various tiling procedures and will provide helpful maintenance techniques.

**PROFESSIONAL INSTALLATION AVAILABLE.** If you need professional installation, Markham Ceramic Tile is ready to help. The company provides full installation services for any type of tile project - including a new construction, an upgrade or a renovation.

The company always completes its work on time and workmanship is guaranteed. References of work completed are available in surrounding areas. Estimates and consultations are free. "We never pressure anyone into making a decision," says Sam. "We work with customers to provide all the information that they require, and the installation expertise, if necessary."

Markham Ceramic Tile is located at
