Encore is exclusive distributor of superior European wood doors

Encore Home Improvements is proud to announce they are introducing a new line of European wood doors, that are very heavy duty and pre-finished. Encore is the exclusive distributor of these European -- "Signature" -- doors that come in Oak and Mahogany, with heavy duty hinges and the multipoint locking system.

Encore Home Improvements co-owner Mike Montecalvo noted that Canadian wood doors are much lighter than these new European doors which are up to 2 and 3/4" thick. "It's a lot more door for the price. 90% of the doors here are made of steel, but in Europe wood is still popular. These are superior quality wood doors."

Mike also pointed out that the "front door of your house is the focal point of the house. It's wise to invest more and get something distinctive and distinguished."

Also, spring is here, so now is a great time to order new windows or a porch enclosure. Interest rates are low and Encore offers NO PAYMENT AND NO INTEREST FOR SIX MONTHS. By ordering now, customers can enjoy the benefits of their home improvements immediately, without having to pay for six months.

Encore Home Improvements offers window products for residential or commercial applications. One of the most advanced window products available is Activ™ Glass, the world's first solar-powered, self-cleaning glass. This new technology uses a two-step process to keep windows clean. A special photo catalytic surface uses the sun's UV light (abundant even on cloudy days) to gradually break down, lessen and dissolve dirt and soil.

And, if you'd like to add some living space to your home without breaking the bank, consider the many advantages in converting your existing patio, porch or deck into a custom-built porch enclosure.

Encore specializes in designing and installing custom porch enclosures for all types of homes. "A small investment can make a big difference in the front of your home," says Mike. "There are many different styles and colours to choose from. In addition to providing extra, year-round living space, a porch enclosure adds resale value to your home."

Porch enclosure options include cathedral roof designs, insulated or thermal construction, ornate window designs and a variety of wallcovering styles and colours. Most enclosures are made of 2" thick aluminum frames and single glass.

Founded in 1987, Encore Home Improvements is a full service door and window company specializing in both residential homes and commercial buildings of all sizes. The company also provides a full line of custom-made porch enclosures, sunrooms, interior shutters and exterior shutters for all types of homes. The company is certified by Window Wise, which is a national certification program that audits and certifies window manufacturers and installers.

Encore Home Improvements is located at 450 Alden Rd.

Family-owned, operated Luxurbath is your 'best bet' for renovations

You have talked to your friends about your proposed bathroom or kitchen renovation and you've flipped through the magazines for ideas. Your financing is in place and you have started seeking out professional help for your project.

For many homeowners, now comes the tricky part: choosing a contractor with the right stuff, to complete your project on time, on budget and to your complete satisfaction. This decision is no less important than choosing design features and colours.

The best company for you is one that listens to your needs and gives you input from a professional standpoint. They must also be able to help you design the bathroom/kitchen and together with their product knowledge, be able to suggest materials and fixtures to fit the final design perfectly.

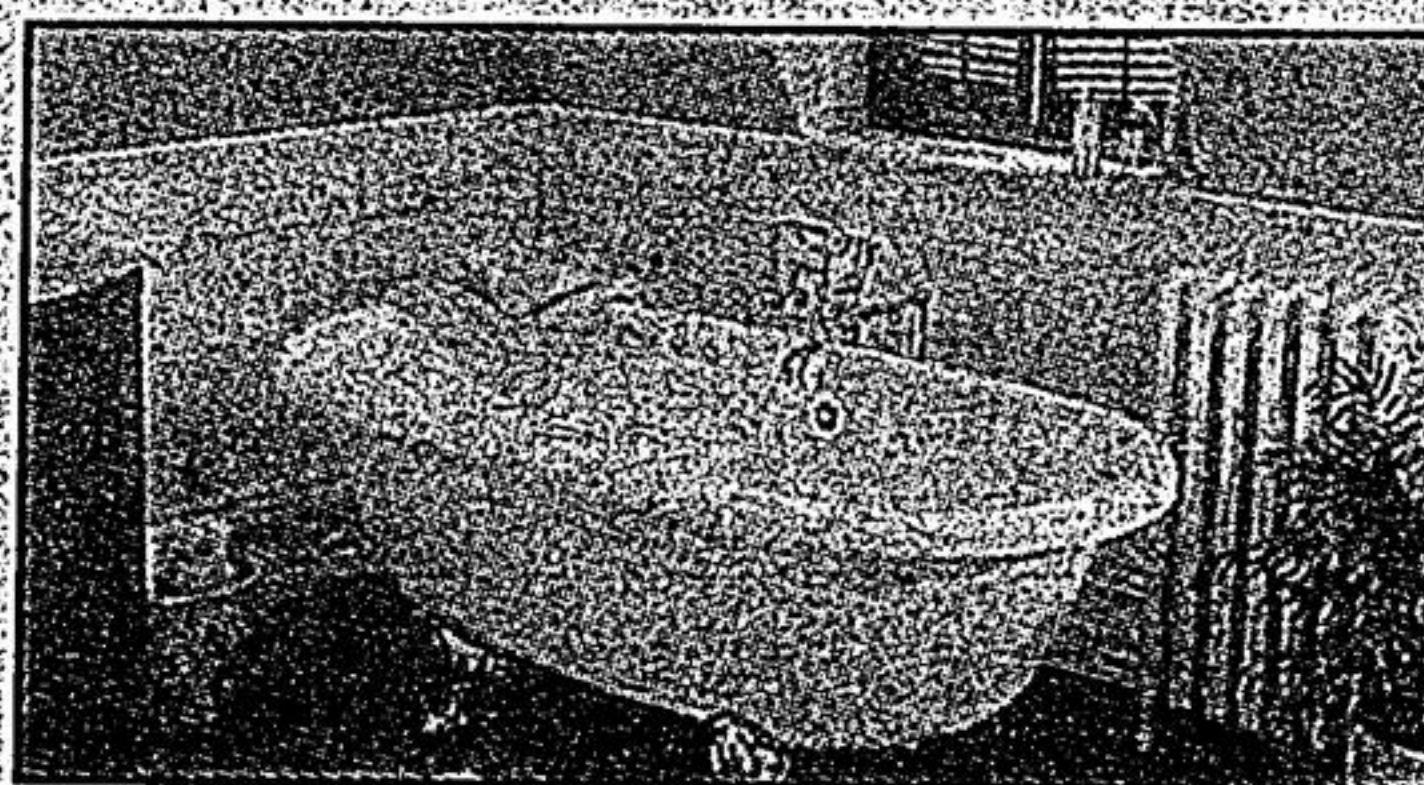

A smaller, family-owned and operated company is your best bet because they focus more on personalized customer service as well as quality over quantity.

Also, family-owned companies like to work on a referral basis, so they try harder to please their customers, especially when their name is at stake.

Since 1970, Luxurbath Ent. has proudly provided residents in Markham, Stouffville and the surrounding areas with quality bathrooms, kitchens, flooring and home renovations. A family-owned and operated business, Luxurbath's excellent service, uncompromising quality and quick, clean workmanship are the pillars of its business philosophy. They take pride in their work, so much so, that they look at each job as if it were their own home.

When clients invite Luxurbath Ent. into their homes, they're receiving the benefit of years of experience, product knowledge and design, with no hidden costs or surprises.

We employ full-trained, experienced contractors who provide clean, quality workmanship on all aspects of bathroom or kitchen renovations," says Mike. "All of the

work is performed by us, we don't use subcontractors. This allows us to control each job from start to finish, and our customers can save hundreds of dollars.

SPECIAL OFFER

If you are considering renovation work, Luxurbath has a compelling reason to act now. If you book complete bathroom or kitchen renovation work before May 15, 2003, Luxurbath is offering a free ceramic tile backsplash, double, stainless steel sink and pullout chrome faucet for every kitchen remodel; or your choice of floor, supplied and installed for free in a bathroom renovation (floor can be ceramic tile, hardwood, carpet or vinyl tile). (Note: for free backsplash and floor, up to 50 sq. ft. for each.) (Certain limitations apply for both offers.)

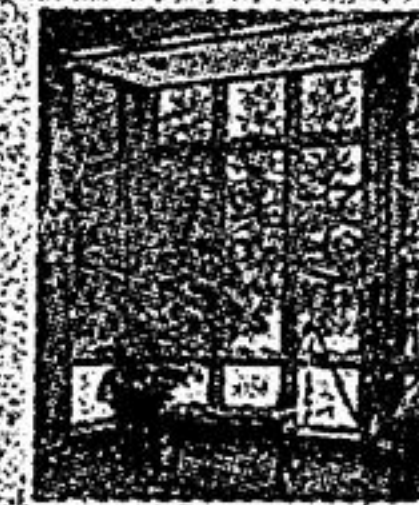

A new bathroom and kitchen is an excellent way to increase the value of your home. It is also a small investment that may provide great returns when it's time to sell your home. From large renovations to small installations, Luxurbath has the credentials and the expertise to make your home renovation project a huge success. All work is guaranteed for six years and referrals are available upon request.

For a free in-home consultation, please call 905-426-6008 or 1-888-776-7366.

And remember...
"make your next bath a Luxurbath."
