Karyn Gordon's "Spill Your Guts"
 Over the last five years, teen therapist and motivational speaker Karyn Gordon has spoken to more than 150,000 teens across North America, presenting her interactive "Spill Your Guts" workshop. Karyn begins with a captivating and relevant 10-minute video that includes clips from her show Spill Your Guts, on which she interviews well-known musicians (ie. Matchbox 20, Everclear, 98 Degrees, Our Lady Peace etc.) about the issues they faced as teenagers and how they overcame them. Following the video, Karyn turns the high school assembly into a mock talk-show format using youth volunteers from the audience.

Errollee 'Making Choices' - Errol combines high energy music, dance and audience participation while talking about the many difficult choices teens need to make when it comes to school, career, friends and family.
 ▶ Thoughts become our words
 ▶ Words become our actions
 ▶ Actions become our habits
 ▶ Habits shape our character

▶ And our character shapes our destiny and the choices we make.
