Do you dare to be unique?

We all have a desire to be unique and special, and we often decorate the exterior of our homes so that they stand out from the crowd.

The same goes for our front lawns. Whether you are all thumbs or all green thumbs, there is no limit to creating a lawn that is distinct and original.

For those of us who don't have the skill or time to design a lawn worthy of the front cover of a gardening magazine, garden centres have a wealth of decorative accessories and experienced staff who can help you create a rock garden, liven up a plain lawn with an original flowerbed, or help you with plans for a pond or

cover a wall with climbing roses. Also, Markham and Stouffville have a number of high quality landscape companies ready to make your property truly unique! All of them can assist in your plans. Don't be afraid to let your creativity run wild!

A single trellis can quickly be transformed into a beautiful focal point when it is strategically placed. When decorated with contrasting colours, it can also do wonders when it comes to offsetting the severity of brick walls. Looking to make a huge visual impact? Most nurseries and specialized garden centres also have building plans for pergolas, gazebos and birdhouses.
