PREPARING FOR THE FUTURE, WE'RE BUILDING OUR LEADERSHIP TEAM FOR MAJOR REDEVELOPMENT AND EXPANSION!

Committed to the highest level of patient care, we are focused on further improving our services and programs and are undergoing an expansion that will see us nearly double in size over the next four years. Opportunities abound at York Central Hospital, which serves the fastest growing community in Canada. We have a diverse clinical environment with progressive specialty units and services and currently require...

Program Director, Surgery

A superior team builder with strong change management skills, you will take responsibility for the organization and leadership of all program aspects including patient care delivery, operational planning, HR development, financial and quality management, education, and research. Your collaborative approach to guiding our multidisciplinary team in achieving established goals and objectives for both inpatient and outpatient care and services is supported by superior evaluation and statistical management abilities. You have a Master's in nursing, business or health care administration or the equivalent, current CNO certification, and at least five years' related clinical experience. Your membership in an association related to professional nursing and commitment to lifelong learning are supported by advanced skills with MS Office.

Administrative Coordinators

- Inpatient Cardiac/Respiratory Medicine
- Inpatient Surgery

Dedicated to outstanding customer service, communication, and teamwork, you will take responsibility for the coordination of human and financial resources to ensure ongoing quality patient care for your specialized program. Highly skilled in interviewing, scheduling, performance management, budget processes, and change management, you have a working knowledge of patient classifications and workload management. As a member of a profession under the *Regulated Health Professions Act* or the *OCSWSSW*, you have directly related experience in a leadership role in a health care environment. A Master's degree is preferred.

Clinical Practice Leader

- Cardiology

You will combine dynamic communication skills, a commitment to clinical leadership, and the ability to meet the educational needs of our nursing staff to maintain continued service excellence. This will include providing orientation to new staff and coordinating patient flow, bed management, and discharge planning. You are a member of the CNO and RNAO with at least five years' relevant clinical experience, two years' progressive leadership experience, and demonstrated leadership and teaching abilities.

Educators

- Dialysis Program • Surgery Program
- Labour & Delivery/Obstetrics Program
- Mental Health Program

A strong communicator with exemplary adult education skills, you will take responsibility for providing leadership through the development, implementation, and evaluation of initiatives that ensure progressive growth of our interdisciplinary team. You are an RN in good standing with the CNO and a member of the RNAO. Your current nationally recognized specialty certification, five years' relevant nursing experience, BCLS, and demonstrated teaching, program planning, and evaluation skills are ideally coupled with a Master's degree.

District Stroke Centre Coordinator

You will take responsibility for establishing our in-house district stroke centre, work with local partners to develop an integrated regional program to optimize a full continuum of stroke care, and establish methods to identify and provide rapid and accurate treatment. You have a health sciences related degree, experience in stroke management, and an understanding of the continuum of stroke care. Consulting or project management experience in a hospital/clinical environment will be highly valued.

Acute Care Nurse Practitioner

- Stroke Care

As a key member of our primary care team, you will provide direct care for patients with stroke and related risk factors, coordinate and supervise the continuum of stroke care within the region, and ensure an integrated stroke service using evidence-based best practices. You have a Master's in nursing specializing in clinical neurology/stroke care, five years' directly related experience, an acute care nurse practitioner certificate (or equivalent), and current registration with the CNO.

Clinical Support & Resource Nurse

- Emergency Medicine, part-time for 1 year

A clinical resource for all staff during our evening and night shifts, you will also facilitate on-the-job learning experiences to advance our overall capabilities. An RN in good standing with the CNO with at least five years' related emergency experience, you are an RNAO member with current nationally recognized specialty certification. Your expertise is complemented by a strong knowledge and application of adult learning principles.

Psychological Associate

- Mental Health Program, temporary, full-time

Committed to life-long learning and dedicated to superior client service, you will provide psychological assessment and treatment within a program and team setting. Registered with the College of Psychologists of Ontario, you have a Master's in psychology and expertise with psychological and statistical testing and interpretation as well as individual and group therapies.

Infection Control Coordinator

A proactive thinker with highly developed leadership skills, you will work toward the prevention and transmission of infections within our hospital through a focused approach to outstanding customer service and evidence-based and cost-effective measures. Your dedication entails the management of day-to-day operations of our service and strategic implementations of steps to fulfill our long-term vision. You are an RN or MLT with experience in microbiology and a minimum of three years' experience in infection control or a related field such as clinical microbiology. Registered with the CMLTO (if an MLT), you have a degree in nursing or ART clinical microbiology and, ideally, CIC certification. Your computer skills include McKesson-HBOC and MS Office.

Infection Control Surveyor

- temporary, part-time

You will facilitate active surveillance of patients, provide assessments, and apply clinical practice knowledge to prevent and control transmission of infections within our hospital. You have an RN diploma, a minimum of three years' relevant clinical experience, and the initiative to maintain superior levels of organization. Your dedication to outstanding customer service is supported by proficiency with McKesson-HBOC and MS Office.

We also have full & part-time positions available for RNs in the following departments:

- Medicine • Surgery • Emergency • Rehabilitation • Obstetrics • Social Assault
