**NDP CANDIDATE  
PAMELA COURTOT**

**Name: Pamela Courtot**  
**Age: 51**  
**Occupation:** Brand manager (computer software industry)  
**Most Important Issues:**  
 The people of Oak Ridges are concerned about fairness and accountability. They want reliable accessible health care, quality public education and reliable public electricity. They expect that their government will protect the environment and ensure food safety.  
 Voters have noticed the decline in essential services such as education and health care. While the Tories tell them there have been tax cuts, few voters feel better off. This is because the lion's share of income tax cuts has gone to wealthy individuals. Increased government service fees and reduced public services have wiped out any benefits for low and mid income earners.
