LONG TERM WATER PROJECT
MASTER PLAN UPDATE
NOTICE OF PUBLIC INFORMATION CENTRE

The Regional Municipality of York is completing an update of its Long-Term Water Project Master Plan last reviewed in 1997. The Master Plan is a long-range plan that integrates infrastructure requirements for existing and future land use with environmental assessment planning principles. Once complete, the Master Plan Update will result in a revised Long-Term Water Project Master Plan document that will identify and recommend water infrastructure projects required to satisfy growth in the urban communities of the Region to the year 2036.

Public consultation is a key component of this study, and the Region invites all interested parties to attend the Public Information Centre to be held at:

Date: Tuesday, September 16, 2003
Time: 4:00 pm to 8:00 pm
Location: Great Hall, Administrative Centre
Regional Municipality of York
17250 Yonge Street, Newmarket

The purpose of this meeting is to provide information on the study and the alternatives that were considered; to present the preferred solution for long term water supply for the Region; and to receive comments from the public. Regional staff and their consultants will be in attendance to provide information and receive comments.

For additional information or to make written comments, please visit the project website at www.yorkwater.ca or contact:
