## ENCORE WINDOWS

### This winter think energy conservation!

This important message from Mike Montecalvo, co-owner of Encore Home Improvements in Markham, will help you save money during the coming deep freeze.

"Cheap windows cause a lot of heat loss," explains Mike. With winter coming, now is the best time to install energy efficient windows. By doing this, you're supporting the Kyoto Accord, preventing greenhouse emissions, and putting money back into your own pocket!

There's another incentive! The government offers cash rebates for energy efficient upgrades in homes. Contact Encore to learn how to qualify for an energy efficiency evaluation of your home.

Encore Home Improvements has been providing residents in the Markham area with superior products and services since 1987. A full-service door and window company, Encore specializes in residential homes and businesses.

"Our door is always open," says Mike. "We have been here for quite a while, offering a lot of personal attention to help our customers make the right decision. There are no pressure sales tactics used."

To achieve peace of mind with all your window needs, look no further than Encore.

"It's better to deal with a local company," says Mike. "We deal with service calls right away."

Last year's winter was harsh, so don't get caught under a blanket of snow, it's best to do all the work now. Windows can take 4 to 6 weeks!

Best of all, Encore offers no money down, interest or payments until next spring! So install those beautiful, energy efficient windows you've always wanted before winter, and start saving money.

Whatever type of window you're looking for, you'll find it at Encore.

Whether its double or triple glazed, casement, double slider tilt, or single hung tilt, a member of Encore's qualified and friendly sales staff can help

At Encore, you make the final decision. Encore's fully certified and trained installers offer the personal touch, look at each job individually, and offer the best alternative for you.

Retrofit window installations and complete tear-outs with our without brickmould are also available at Encore.

New this year are elegantly designed exterior front-entrance doors featuring wrought-iron designs. If you've been thinking of changing the look of your door, take advantage of this great opportunity through Encore's great introductory offer.

Encore Home Improvements also provides a full line of custom-made sunrooms, and interior and exterior shutters for all styles of homes. The company is certified by Window Wise, a national certification program that audits and certifies window manufacturers and installers.

Encore Home Improvements is located at 450 Alden Road.

## Fieldstone Windows Ltd.

With fall just around the corner, now is the time to start thinking about installing new windows and doors. If you happen to be in the market for either, consider the expertise offered by Fieldstone Windows Ltd., which specializes in custom work finished to perfection!

Fieldstone Windows Ltd. is owned and operated by Ken Simpson, a trim carpenter by trade who has more than 15 years' experience in the construction business. Unlike many door and window companies, Fieldstone hires only those carpenters who show his commitment to detail. Each installation is supervised in order to maintain consistent quality.

"It is possible to insert new door and windows into existing window frames, leaving interior mouldings intact," says Dave. An alternative method is to remove the entire window back to a rough opening. This also gives a most impressive look.

By removing the entire window, customers are assured that the new window is sealed and insulated properly and that any old or rotting wood is removed. Larger glass area and upgraded mouldings are other added benefits.

Fieldstone Windows Ltd. specializes in professional residential window and door installations, and takes enormous pride in completing all work on time and on budget. Whether it's a vinyl window or a solid wood door, there is a range of qualities from high-end to poor. "We make quality a number one priority," says Ken. "We have a number one priority commitment to detail. Each installation is supervised with all customers, which has resulted in many repeat and referral customers."

Windows are highly practical aspects of a home, but they serve another purpose as well. They are also design elements that can make or detract from a home's appearance. When choosing a window, it's important to not only select an efficient window, but one that complements the architecture as well.

Call Ken or Dave at Fieldstone Windows Ltd. today for a competitive quote on your next project. Fieldstone Windows Ltd. can be reached at 905-640-9287.
