Program helps young entrepreneurs

Unemployed youth in Keswick and Markham now have the opportunity to start a new life.

The Job Skills Youth Entrepreneurship Program (YEP) is offering an exciting opportunity to young entrepreneurs and assisting them in creating their own business.

This initiative, funded by the federal government, will allow participants the opportunity to explore new career and employment options.

The 24-week program, combines in-class training, coaching and mentoring, which will prepare the young entrepreneur for real world strategies of self-employment and individual business plans.

The second phase of the program consists of a business coach guiding the participants with their business ideas from concepts to reality.

The program, targeted at unemployed and out-of-school youth between the ages of 15 and 30, begins Nov. 6.
