## Should I buy a new sofa or reupholster my existing one?

Who should you turn to for an objective answer? Bill Rizk of Markham Furniture is the best person to answer such a question.

"We could build you a new sofa or chair in fabric or leather, or reupholster your existing one right in our shop," says Mr. Rizk. "In most cases, we can restore your existing sofa to its original glory and beauty at less than the cost of buying a comparable new one."

The reason Mr. Rizk can be objective is because, whichever decision you make, he hopes to earn your business either way.

### NEW FURNITURE BUILT ON THE PREMISES

Markham Furniture builds new furniture on the premises. All sofas are built with solid, hardwood frames, eight way hand tied coiled springs, top grain leather or quality fabrics.

The prices are substantially less than comparable sofas sold in fine retail stores.

### NEW INTRODUCTIONS

Markham Furniture continuously sells its floor models at much less than factory prices. This in itself creates an opportunity to introduce new styles in fabric or leather, or fabric and leather combinations.

### THE BEST REUPHOLSTERY SERVICE IN TOWN

In addition to offering brand new sofas, Markham Furniture provides expert reupholstering services for a wide range of furniture, for less than the cost of buying new.

Markham furniture is owned & operated by Bill Rizk, former Barrymore Furniture Plant Manager.

Recliners, dining chairs or tub chairs are restored to their original beauty and design.

"No upholstery job is too small for us," says Mr. Rizk. Reupholstering will extend the life of your existing furniture and save the cost of replacing it."

### LEATHER SOFAS

Markham Furniture builds and sells quality leather sofas at well below retail prices. We use no vinyl matches and no split leather - only top grain Italian leathers.

### OVER 25 YEARS EXPERIENCE

Prior to Markham Furniture, Bill Rizk spent many years managing the Barrymore Furniture plant. His commitment is to give you good quality and service at a very reasonable price.
