Thinking of investing in a hot tub?

Here are some helpful facts to lead you in the right direction.

There is no doubt that owning a spa or hot tub can benefit your lifestyle.

When you have the right product in the right location the rewards can be great. Just think of coming home after an especially hard day to an inviting and warm massage that can transform your state of mind.

**But where do you start?**

It is easy in today's market to over buy or be taken in by the "glitz". The key to success is fitting the right tub to the right client and skilled sales staff can help you with this. Before you go shopping for your hot tub ask yourself some questions to help make the right choice.

• Will it be placed indoors or outdoors?

• Size... How many in your household?

• Do you need specific therapy, like shoulders or feet?

• Budget... Do you need financing?

• How much time do you have for maintenance?

• Is warranty and service staff important to you?

• Is this company going to be there to help you down the road?

• There is a spa or hot tub out there for everyone. It is the fit that is important.

Watch for our next article on what you need to know about installation.
