**MANNING, David** - April 23, 1949 - March 19, 2002

Time moves on, we know it does, it's been another year. But still, each good time that we share, we all wish that you were here. We know you must be happy in that better place you've gone. Beyond the lovely sunset, before the misty dawn. The moon must be the headlights on your Harley in the sky. It lights your way among the stars, as you go rushing by. We live our lives the best we can and try not to complain. And think about those times down the road when we will meet again.

Your family who knew you! Loves you and cherish your memory.

You lead a healthy, active lifestyle.

## Are you still at risk for a Heart Attack or Stroke?

A local doctor is conducting a medical research study to evaluate if a drug currently available in Canada, will lower your risk of heart attack or stroke. Recent research suggests that a simple blood test, called high sensitivity CRP, may show inflammation of the arteries. This test may indicate a higher risk for a first-time heart attack or stroke.

**Qualifications for the study include:**

- Men must be 55 years or older
- Women must be 65 years or older
- No history of heart attack or stroke

To learn more, call toll free (M-F 8 AM - 5:30 PM Eastern)
