Stop Dreaming!

That beautiful landscape you saw in a magazine or noticed while driving through an up-scale neighbourhood can be yours. Wake up to a reality in your own backyard created by the skilled landscape designers of Genoscape Inc.

If you want your garden to captivate and astound, the experience of a trained professional landscape designer is absolutely necessary, and will save you time, money and heartache.

Create that dream yard that flashes through your head every time you look out the window and see shafts of sunlight draping beautiful flowers and trees, and collecting in the water of your very own pond. Winding paths leading through terraced flower beds, and at night, the gorgeous interplay of light and shadow from strategically placed lighting that will create that fairy tale atmosphere. This can all be yours!

Genoscape Inc., a full service Landscaping and Design Services company located in Markham, can bring your dreams to life. Genoscape offers homeowners a comprehensive list of services, from the initial development of a concept design right through to the implementation of the final project. Some of their services include: interlocking brick, natural stonework, retaining walls, flagstone, landscape lighting, decks and woodwork, irrigation, ponds and water features, and they also specialize in residential design and construction.

All work is guaranteed and we pride ourselves on prompt completion, explained Joseph Genovese, owner and operator of Genoscape Inc, who brings over 12 years of experience to the company. "Once we start a job, we finish it to the customer's satisfaction before we start another."

What is the secret to achieving such a property? The foundation or "skeleton" of the property. This is the initial landscaping that is used as a guide, and requires the skill of a professional. After this important stage, the other features are added for colour, design and texture.

In addition to their excellent skill and service, Genoscape Inc. is fully insured with new, state-of-the-art construction equipment to ensure an attractive job site. Genoscape is bound to its commitment of professionalism and skill in all aspects of the operation.

"We are committed to quality workmanship and are dedicated to the needs of our customers," explained Mr. Genovese. "The appearance of our customer's property is our product and we stand strongly behind our product."
