

Enjoy a youthful look this spring!

Blush Spa & Salon in Unionville will give you a refreshing new look!

Try a youthful look this spring with a makeover from Blush Spa & Salon in Unionville.

Rita Bruno was this month's New You Makeover winner, and received an updated, exciting new look from the talented staff at Blush.

"It was wonderful," said Rita, highly pleased with her new look. "They dyed my hair, added highlights, cut it and styled it, and added makeup. It was a pretty dramatic change."

Rita said her hair is naturally curly, and was always weighed down and full. Now her hair is straight and shorter.

"It's more of a youthful look," Rita said. "Before the length was bushing out. Now it's lighter in weight and volume. It's shiny, light and bouncy."

The first step to Rita's new youthful look was hair colour, which in her case, needed an update.

Frou, a makeup artist and hair stylist for the salon, added Plum Red for the base, then added thick caramel highlights all over.

"Highlights were added to harmonize everything together for a younger look," she said.

When it was time for the cut and styling, Fran, owner of Blush Spa & Salon, shortened the hair. However, Rita wanted to maintain her current length, so layers were added, and the hair remained at a mid-neck level.

"Because of the texture and curls, layers were added around the face."

"We framed her face with short layers to give a slimmer look, and bring out the eyes," explained Fran.

The cut is shorter around the face, and is longer at the back to emphasize the chin, eyes and cheekbones.

"Rita's hair wasn't doing anything for her when she came in," said Fran. "It was just sitting there. Rita's face really has a beautiful shape."

Now, Rita looks much younger, and has a nice, fashionable look.

Soon it was time for the final step—makeup. Frou said warm earth tones were used, a cherry colour was added to enhance the cheek bones, and beige was used as a foundation on the face.

"Three shades of brown were used for the eyes," explained Frou. "Black eyeliner was used to accent the eyes, and then black mascara for the eyelashes."

Finally, a plum tone was applied to the lips.

Now, Rita has a new youthful look just in time for spring. In fact, she has already received compliments from friends and coworkers.

"At work, everyone was amazed," said Rita. "They were like, wow, what a difference! They loved the makeup too."

Rita said she was very pleased with the service. The friendly staff offered tea, answered all her questions, and happily volunteered information about what they were doing, and how to take care of the hair.

"I recommend Blush Spa & Salon to everybody," said Rita. "I definitely would go back."

Make an appointment today, and visit Pepe, Frou, Fran, Joana and Jason, the friendly staff of Blush Spa & Salon. They look forward to hearing from you!
