Ever Dream of Hair Like J-Lo's?

Before

What do Sarah Michelle Gellar, Demi Moore and Britney Spears have in common? At some point in their recent careers, these big name stars have opted for hair extensions. This type of celebrity endorsement has helped the technique to become a hot fashion trend around the world.

Local high school student, Kristen, wanted longer hair for her prom, but she didn't want to wear a wig or wait for her hair to grow in. Instead, she chose a hair extension treatment from the prestigious Blush Spa and Salon in Unionville.

The four-hour procedure provided Kristen with a stunning new look for her prom, a look that will stay in place for months afterwards. "We wanted to add length and colour to Kristen's hair," says Joseph Xibilia, a hair stylist at Blush Spa and Salon. "Now she has a full head of beautiful hair that looks great and is easy to manage."

Joseph added about seven inches of length to Kristen's hair. The extensions included blond pieces and black strands with red tips to give the hair a younger, trendier feel.

Kristen is delighted with the end result and plans to keep the extensions in place.

"There are many benefits to applying hair extensions," Joseph says. "They are very versatile, they require no maintenance, and they are available in a wide range of colours and textures. Customers can get longer, thicker hair instantly, without having to wait months for their own hair to grow in, and you can swim, shower, shampoo or style your hair as normal."

Hair extensions are virtually undetectable from your regular hair, and the experts at Blush Spa and Salon will create a look that is as natural as your own hair. If you have any questions about this popular hair technique, contact the experts at Blush Spa and Salon. They will be happy to provide information to help you to make an informed decision.

The cost of hair extensions varies. At Blush Spa and Salon, one of the area's most popular salons for extensions, a single extension will cost about \$10, while a full head of extensions will cost about \$2,000. "We have a lot of expertise in applying hair extensions for all types of hair," Joseph says. "Our clients range in age from teenagers to adults in their 50s."

Take advantage of the company's special June promotion. Customers will enjoy a 20% savings on all hair extensions until the end of the month. Now is the perfect time to give yourself a new look for summer, or to celebrate an occasion.
