We are happy to celebrate the return of our annual drama camp. Run in co-operation with Unionville High School, students spend four weeks writing and creating their very own theatre production that is presented to friends and family on stage at Markham Theatre, at the end of the camp. The impact of the camp is the fun that the participants have in creative process of writing and putting together the show. The final product may not be bound for Broadway, but it is truly representative of the children that make it.

Working with professional dancers and musicians as instructors, the camp concentrates on learning to have fun while performing at your best. No experience is required, just a love of music theatre and a willingness to learn. The camp culminates in a presentation of the best singing and dancing numbers as well as a few original pieces from the camp curriculum in a showcase on Markham Theatre's stage.

Space is limited, so don't delay!
