

Markham, Richmond Hill and Vaughan...

Your Current Connection Just Got Stronger!

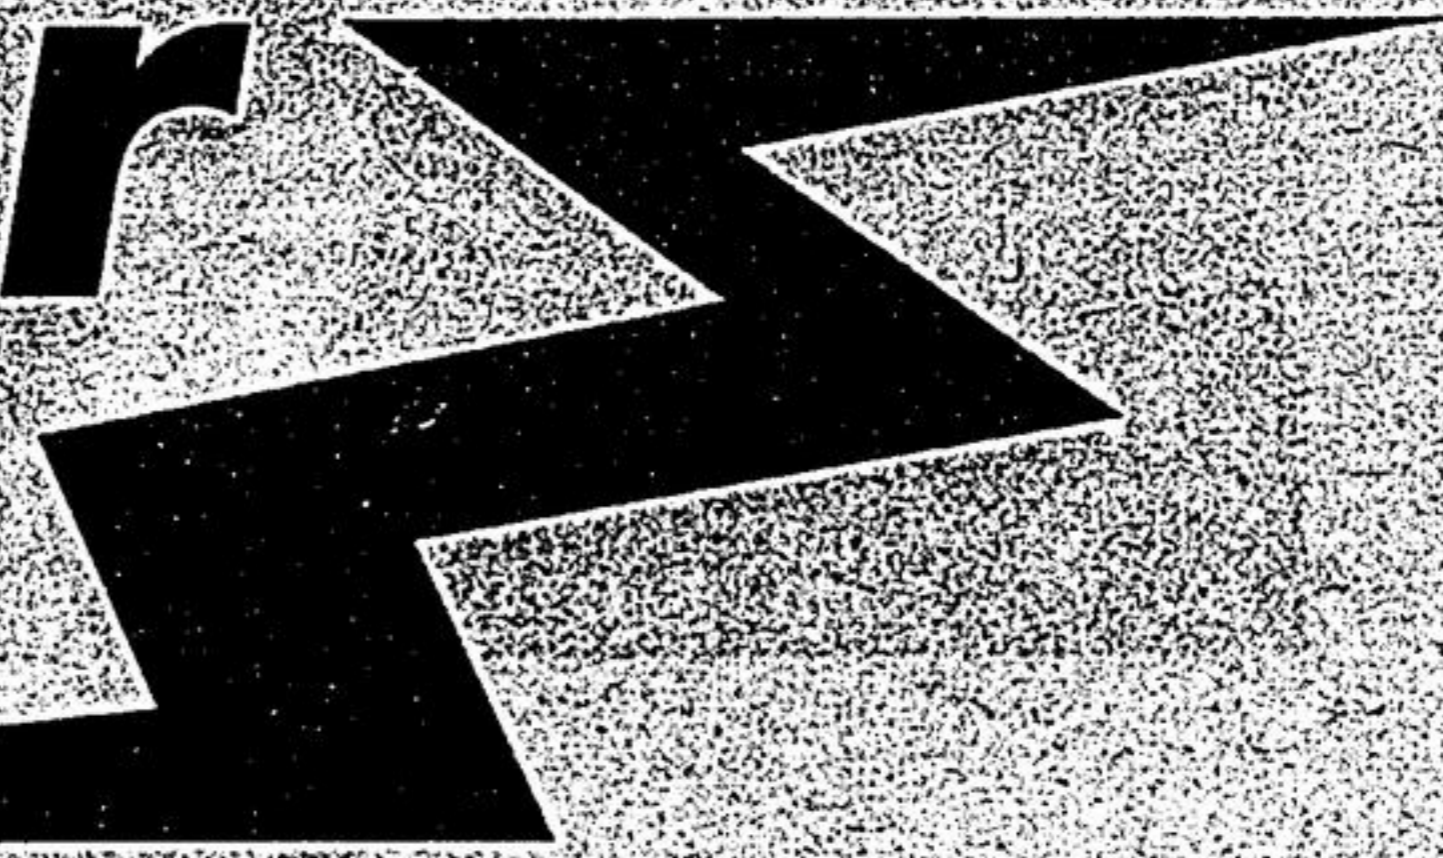

Former electrical utilities — Hydro Vaughan Distribution Inc., Markham Hydro Distribution Inc. and Richmond Hill Hydro Inc., have merged to become:

PowerStream

The new electrical utility (jointly owned by the City of Vaughan and the Town of Markham) is now the third largest local distribution company in Ontario, delivering electrical power to more than 190,000 residential and business customers.

Our goal hasn't changed. PowerStream is committed to providing its customers with safe, reliable and efficient service. What has changed is our ability to realise that goal through operational efficiencies. As one entity PowerStream represents a more viable electricity distribution company. We're reducing overhead costs, improving utilisation of assets, and enhancing our purchasing power. In the end, our customers will benefit from the reduced upward pressure on distribution rates. That's why we say your current connection just got stronger. For more information on PowerStream please visit our web site at www.powerstream.ca
