Kids deserve a Healthy Environment!

One in 10 children will be diagnosed with Asthma this year! Are your children protected?

The drastic rise in the children diagnosed with Asthma is positive proof of what high concentrations of chemicals, bacteria, pet dander, dust and other pollutants can do in the confines of our air-tight homes.

The cost of a good air purification system doesn't have to be expensive, to be effective. Heaven Fresh offers a perfect solution in its XJ-2000 air purifier. The XJ-2000 retails for a fraction of the price of the Sharper Image Ionic Breeze Quadra™. Its affordable, effective, safe, silent, inexpensive to operate and has no ongoing maintenance costs.
