## WARNING DOG OWNERS: LAND MINES DETECTED

Your dog has been spotted planting land mines beneath the snow throughout this long winter, and he has been VERY BUSY. We are a special agency that can help you deal with this problem. Our operation is called SPRING CLEAN-UP, and has proven to be a very effective way to deal with this nasty situation. Now let us tell you a little bit about our unique agency.

Mr. Stoop & Scoop is our name and we have been dealing with this problem for a number of years, quite successfully I might add. We come to your house or business, clean up and remove these nasty mines.

All it takes is a phone call. However, it's important that you call before the snow is gone in order to guarantee yourself a spot. This is a very busy time of year for us.

Mr. Stoop & Scoop is owned and operated by Glen Gibson, a highly trained field agent whose skills are in high demand. In fact, Glen's level of skill is so high, you can go about your daily business without even seeing him or having your daily routine disrupted. The only way you will know Glen has visited your home is the lack of stinky mines. Also, Glen is comfortable being around the enemy since he deals with a lot of them on a daily basis.

Glen's service is invaluable for busy people on the go who love their pets, but simply don't have the time to properly secure their yard of the messy landmines, which pose an exceptionally messy hazard this time of year.

According to Stoop & Scoop intelligence, dogs often plant these weapons under the snow in the hopes of launching a massive springtime offensive, which they call the "Spring Thaw." This attack is exceptionally dangerous, however, with the expert help of Glen and his specialized agency, you can take back your yard!

Mr. Stoop & Scoop offers spring cleanup, weekly or monthly service with very reasonable rates. And, don't be embarrassed at all to make the call! Don't delay call today!

Call now and enjoy a yard where you don't have to watch every step!

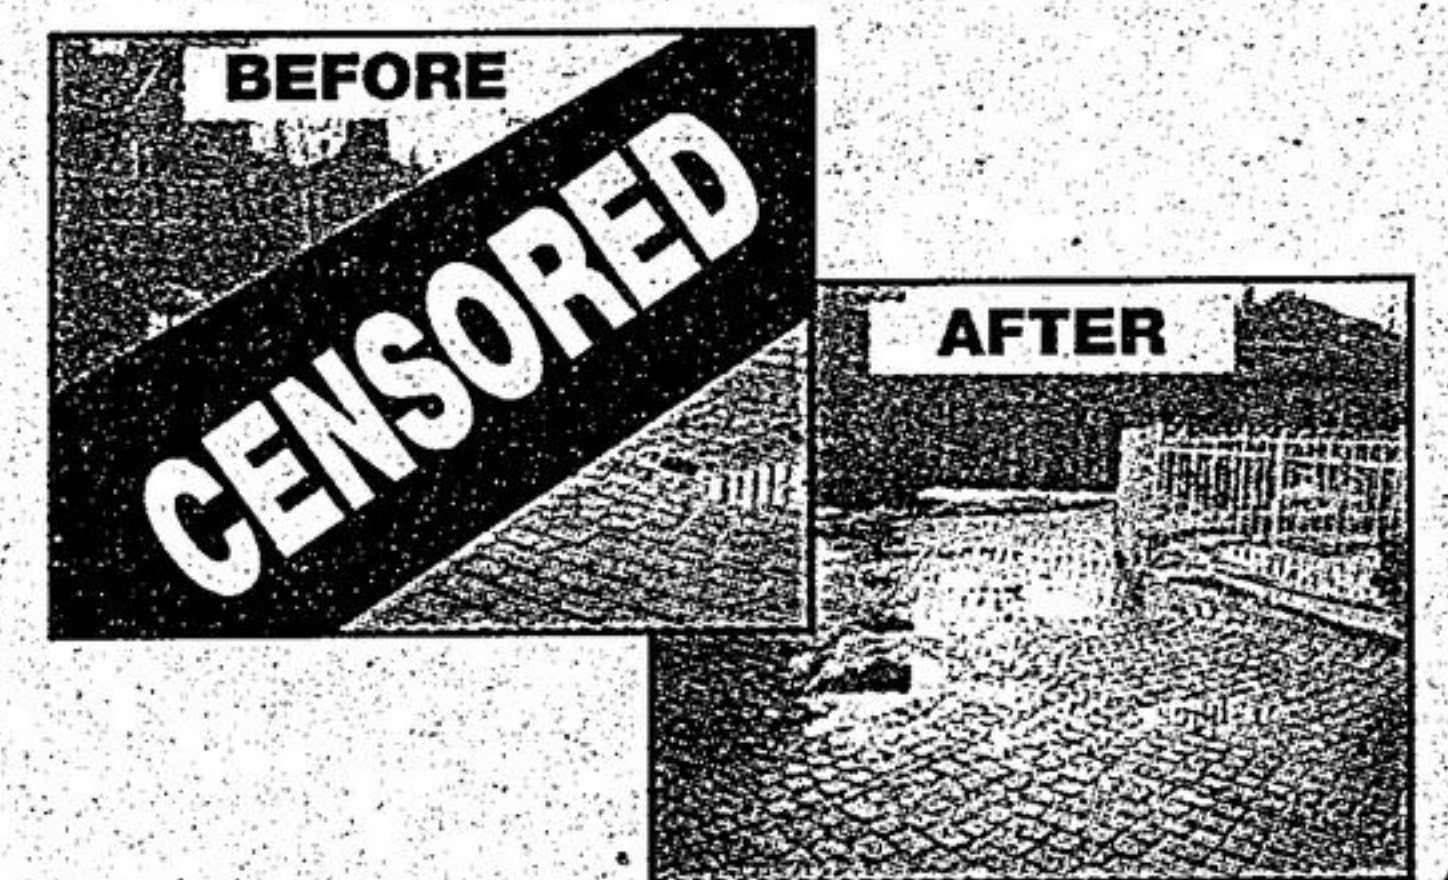

The spring clean-up starts at \$65.00, or sign up for weekly clean-ups starting from \$12.00. However, prices may vary depending on the size of the yard and number of dogs. We do our utmost to work within the lawn cutters routine.

Call Mr. Stoop & Scoop for more information or to book your appointment. Call either 416-898-GONE (4663)

or 905-642-6464

or visit [www.mrstoopandscoop.com](http://www.mrstoopandscoop.com).  
 Glen can also be reached at [mrstoopandscoop@aol.com](mailto:mrstoopandscoop@aol.com)

**Customer Testimonial**  
 To Whom it May Concern:  
 We highly recommend Glen's service. Mr Stoop & Scoop We both work long hours at full-time jobs and have three very big dogs (130 pounds each) that do their business in our small, locked backyard. During the four years Glen has worked with us, he has been prompt, courteous, trustworthy and dependable. He's friendly with dogs, which think he's family. He quietly arrives, lets himself into the backyard, cleans it up and leaves - usually without us ever knowing he was there. The only sign that Glen comes late in the week so the backyard is tidy for the weekend. He offers to help out on days when he knows there will be company. Spring Cleanup is another one of the services he offers that we are MOST grateful for! We are sorry to be moving out of the area. Glen's reliability, honesty and professionalism make him a valuable and exceptional person to deal with. We wish him continued success in the future, and recommend him unequivocally!  
 Sincerely,  
 Diane Schurman

## Lockridge Hi-Fi

Lockridge Hi-Fi has been in a quiet corner of Markham since half a year ago, and with this store comes wonder in the realm of sound and audio. The philosophy behind founding Lockridge Hi-Fi is rather unique. Our staff feels capable of combining two marketing points in a single store. The two points are a crisp knowledge of speakers and amplifiers, and an intimate understanding of the best of what the musical world offers. To the staff of Lockridge Hi-Fi, these two are inherently related; the separation of the two is almost unnatural. Though, sadly enough, marketing the two simultaneously seems too ambitious to some.

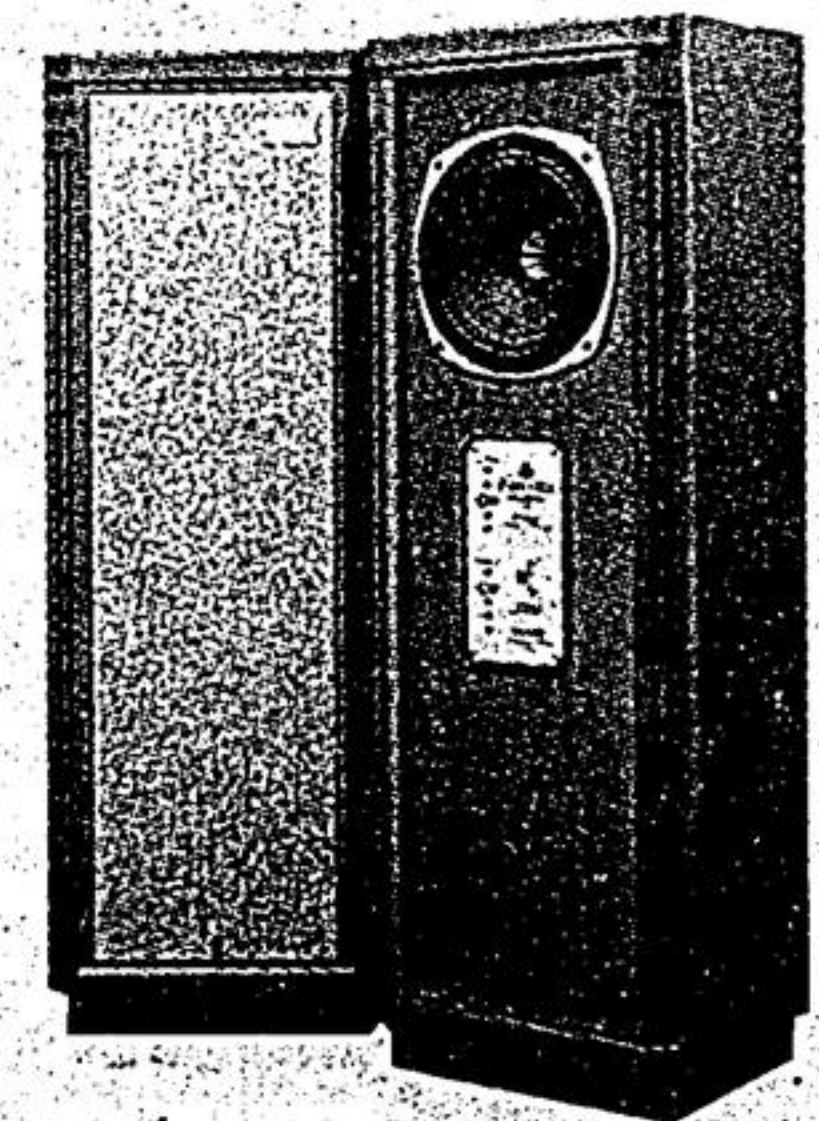

Throughout the past six months Lockridge Hi-Fi has grown to represent the best of sound appreciation. The store features remarkably engineered audio systems in four demonstration rooms, as well as CDs, DVDs and accessories in a spacious open area. Customers have frequently commented on the comfort level made possible by our roomy store. Our location also offers parking convenience for our customers. As our staff understands that selecting hi-fi systems or musical masterpieces is no easy task - surely not a hasty process - we make sure that every detail plays a careful part in our service. Lockridge Hi-Fi is certain to be the best shop for the best audio selections.

Lockridge Hi-Fi currently boasts a fine line of local and imported speakers, a top-notch series of amplifiers, and some of the most reliable electronics. As well, our philosophy makes sure that we choose the best CD labels and titles to showcase our hi-fi systems.

Lockridge Hi-Fi has been made dealer of some excellent audio equipment including UK's Tannoy and Canadian StudioLab speakers. Presently, we are delighted to feature the only pair of Tannoy Prestige Series Kensington speakers in North America. These much raved about speakers are a sophisticated work of art with fine craftsmanship, exceptional finishing and an image of classical British grandeur. They bring some of the best engineering of the legendary British audio industry to town, and for a limited time they are available for fancying just minutes from your doorstep.

Tannoy has been a synonym for excellence in sound for years among audiophiles. To continue this legacy Tannoy has rejuvenated with an ever more impressive line of speaker designs. One example of innovative Tannoy designs is the trademark dual concentric unit design that spells satisfaction for the utmost music enthusiast. Today

being displayed at Lockridge Hi-Fi are Tannoy speakers equipped with this design and the traditional care in all Tannoy products.

Another line of spectacular speakers emerging in the last decade is the award-winning British Living Voice. With much accolade testifying for them these speakers almost need no introduction. Almost... Lockridge Hi-Fi's support matches them to our extraordinary collection of amplifiers for the musically inclined. Presently we are a dealer of high-quality electronics including Exposure and NAD. We also feature a new line of superb Canadian-engineered Chinese-made tube amplifiers. Other performance audio and visual equipment includes such brand names as PSB, Klipsch, Toshiba and more.

Lockridge Hi-Fi's expertise in music also enables our connection to local musical communities. Our store has an extensive library of classical, jazz and other music masterworks, and our staff has been active in supporting local music industries. Lockridge Hi-Fi was the sole audio support in a recent SRI release event in Toronto, and our next focus is Le Festival Son & Image in Montreal, April 1 - 3.

Lockridge Hi-Fi wishes to serve every music-loving individual to his or her satisfaction. We are determined to become the musical centre for Toronto North and beyond.
