The Regional Municipality of York

NOTICE OF PUBLIC CONSULTATION CENTRE #4

Transportation Improvements in the Markham Bypass Corridor South of Highway 407

The Regional Municipality of York (Region) is carrying out the Environmental Assessment (EA) for Transportation Improvements in the Markham Bypass Corridor South of Highway 407. The purpose of the Undertaking is to address existing and future transportation deficiencies across the boundary of the southeastern areas of the Town of Markham and the developed areas and the proposed to be developed areas of northeastern City of Toronto.

The last rounds of Public Consultation Centres were held in October 2004 to present the Alternatives to the Undertaking, the need and justification, and the preliminary development of alternative alignments. The purpose of this fourth and final round of Public Consultation Centres will be to present the work carried out since the last consultation centre, including the development of the alternative alignments, the analysis and evaluation of alternatives, the identification of the Technically Preferred Alternative and the next steps in the study. The study area is shown on the key plan below. The Public Consultation Centres are scheduled for:

PUBLIC CONSULTATION CENTRES
