Financial expert mixes music with math

What do you get when you cross a classical pianist with someone who has decades of experience as a treasurer with a multi-national Fortune 500 corporation? You get an accounting whiz who offers as many financial services as there are keys on a piano. In fact, local number cruncher Joe Nemni of Joe Nemni Financial Services is to accounting what Beethoven is to symphony, but unlike Beethoven, Mr. Nemni is an expert in playing both the piano and the calculator. Word about his accounting business is music to the ears of many start-up, small and medium sized business owners who seek his advice regarding a variety of financial services.

Mr. Nemni took early retirement from a large corporation so he could pass along the benefits of his senior corporate experience to companies and individuals seeking a financial services company that can supply disciplines ranging from financial management, incomes taxes and book-keeping services to general accounting, financial planning and how to measure one's results against their financial plan. The end result is increased profitability for the client.

Mr. Nemni stands out as a Certified General Accountant because not only does he make house calls at your convenience, he also offers business owners their very own chief financial officer on demand. In other words, a company that can't afford a full time controller or CFO can use Mr. Nemni's knowledge, experience, flexible time schedule and consulting skills whenever they want, without having him directly on staff or even on the premises - not that he doesn't admit to being a charming person who recently gave a concert on a new grand piano at a Stouffville senior's centre. After all, he is an accomplished solo performer pianist who graduated from the Royal Conservatory of Toronto.

"Accountants aren't boring," he laughed. "My wife and I love to entertain and I enjoy golf, curling and tennis. We can be fun-loving people."

Many small, medium sized and start-up businesses use QuickBooks software to track their operations. Mr. Nemni is a Certified QuickBooks Pro Advisor who can show you how to set up and

use the versatile and powerful software program. Then, it's up to you whether you want him to run it for you on his computer or on your premises or have him train someone in your organization on how to do it.

Mr. Nemni is proud to share his large corporation experience with the people who can benefit most, and this is what gives him complete job satisfaction. His helpful nature makes him perfect for this type of endeavour.

"I've always dreamt of starting up my own accounting and financial consulting business because I enjoy helping people." Available for income tax preparation and consulting for individuals and businesses, he offers personalized service day or night, something that is now more of an old-fashioned philosophy.

"You pay me only for the time you need me," he said. Mr. Nemni also helps with financial planning advice and personal budgeting saying that many individuals go to him for assistance in this area.

"I can help people and businesses bring order and control to their financial affairs at a very reasonable cost."

A York Region resident since 1982, you can contact Joe Nemni at 905-640-0065 or log onto www.joememni.com. He can also be reached by email at [jmemni@sympatico.ca](mailto:jnemni@sympatico.ca)

The Greenest Treatment In Town!

Markham is "going natural" with the latest, and the only hand-made organic skin-care line, exclusively at Beauty By Nature.

These amazing products cover all the skin's needs such as healing, anti-aging, energizing and refreshing, and provides invigorating aromatherapy with every use!

NEW at Beauty By Nature, is the natural art of cosmetic acupuncture. This ancient Chinese method of healing is being used in a look-changing technique called a "Cosmetic Acupuncture Face Lift", and has a success rate of 98%!!! The non-surgical face-lift stimulates and tones sagging, aging skin while removing toxins and encouraging cell reproduction, aiding in the elimination of fine lines and wrinkles.

Just imagine erasing years of lines and stress from your face - safely, painlessly, and without surgery!

Chiropractor of the year nominee and acupuncture specialist, Dr. Katrina Kulhay has been training and providing knowledge about these health procedures, and Nasia of Beauty By Nature now has her gift to share!

- Benefits:**
- Reduce or eliminate puffy eyes
 - Reduce double chin
 - Improve Circulation
 - Tighten pores
 - Reduce/eliminate fine lines & wrinkles
 - Reduce or eliminate frown lines
 - Increase collagen production
 - Raise drooping eyelids
 - Lift sagging Skin
 - Reduce/eliminate dark circles under eyes

How It Works:
By inserting very fine, hair-thin, disposable, sterile needles into specific acupuncture points on the face, there is a rush of blood circulation to the specific areas. The skin becomes nourished, oxygenated and moisturized from the inside out. When there is more circulation, the body produces more collagen and this, in turn, gives the skin more tightness & elasticity, helping to reduce and/or eliminate sagging skin, wrinkles, double chin, dark circles, etc. Twelve (1) hour sessions are recommended protocol in order to achieve optimal results, and two treatments per week over six weeks is most beneficial, although other time-plans can work.

First 20 people will receive 2 complimentary organic Micro-Dermabrasion \$200 value.

Call Nasia to learn more about this wonderful health miracle, and be sure to ask her about her new Cellulite Treatment system!
