Lemonville art scene

Art lovers check out the popular Lemonville Group of Artists' show last weekend at the Lemonville Community Centre. Visitors from across the GTA looked over more than 100 pieces of art.

Care could be compromised

From page 1.

It suggests not all GTA/905 residents are able to access hospital care close to home. It also warns continued underfunding will begin to compromise the quality and timeliness of care in GTA hospitals.

According to the report, 905 hospitals have an occupancy rate of almost 94 per cent, compared to 77 per cent provincially and 83 per cent in Toronto. Wait times for cancer and heart and stroke care, cataract surgery and joint replacements are longer than the provincial average.

Emergency wait times, at 3.9 hours, match the provincial average.

Patient satisfaction scores for hospital care are slightly lower than the provincial average and satisfaction with emergency department care is lower still. At the same time, hospitals in the GTA/905 spend 8 per cent less on administration than the average provincial hospital.

"Markham Stouffville Hospital supports the efforts of the GTA/905 Alliance report as we are one of the hospitals facing significant pressures and space demands to meet the needs of our growing community," senior vice-president Lorne Zon said.

\$2000 REWARD (no questions asked) MISSING

Wolfie
