"S.O.S. ~ Save the Mess!" Sack Of Soil

Fairgreen Sod Farms is the answer to all your sod, soil, and fertilizer needs. Located at 10378 Highway 48 in Markham on a 100 acre farm, Fairgreen grows sod on eighteen different properties throughout Markham, Stouffville, Zephyr, Virginia and Beaverton. The company utilizes the latest technology in harvesting and irrigating to ensure the best quality sod available.

"We do not strive to be the biggest sod grower in Ontario," said owner and operator Cam Fairty, "just one of the best."

This is evident by the fact that Cam is the first sod farmer in the York/Durham Region to utilize an Autostack Sod Harvester, the most up-to-date harvesting machine available on the market today. It was recently featured on the show "Mega Machines". The purchasing of the Autostack Harvester is a testament to Fairgreen's commitment and dedication to growing the best quality sod possible.

Fairgreen offers an innovative Sack Of Soil system. SOS is a bag that contains over one cubic yard of garden or top soil, both of which are screened on the premises. They can be conveniently delivered to customers in environmentally friendly, reusable, and resealable bags. The bags are delivered by trucks equipped with forklifts which are capable of placing the soil wherever the customer requires it, ensuring a quick, easy, and mess free experience. Soil is available for pick up by the yard, truckload, or SOS system.

The company's fleet of trucks deliver loads of sod from as little as 20 rolls to full-size tractor trailer loads. In addition, Fairgreen also does soil and sod installation. No job is too large or complicated for Fairgreen, whether you have a residential home, park, commercial lot, playing field, cemetery, golf course, or complete housing development, Fairgreen's hard-working and dedicated staff are fully capable of meeting any challenge in a professional, timely, and friendly manner.

Fairgreen Sod Farms offers a legacy of lifetime farming experience, not only from Cam, who has been farming since he was 12 years old, but from his parents, Howard and Muriel Fairty. Howard Fairty was one of the first sod growers in Ontario. In fact, to this day Cam and his family uphold the principles of growing high-quality sod and providing good service passed down from his parents.

So drop in today and experience the culmination of two generations of sod growing expertise. Fairgreen Sod Farms retail outlet in Markham also offers grass seed, sod staples, sod tarps, as well as seed spreaders. All seed and fertilizers are the same quality as those used on the sod fields.

Stone Mason Dental ~ Dr. A. Girgis

Veneer

Spring is here and cheerfulness is filling the air around us.

Looking good and feeling good gives us a positive attitude in life, better chances, an extra advantage and a push towards success.

Porcelain veneers are considered one of the easier and more reliable ways of permanently changing your smile to the one you have always dreamed of.

The procedure consists of minimal preparation of the teeth to be veneered, followed by taking the impressions. This is sent to the laboratory along with the records of the colour-match to individually custom make the porcelain veneers. A few days later the patient is seen again for the final placement of the veneers, and is re-introduced to the world with their confident new "look".

Visit Us In Stone Mason Dental...

Dr. A. Girgis and Stone Mason Dental team would like to give you the upper hand in your options. We are offering a special on porcelain veneers during the month of April.

Contact us to speak with Melody, Debora, or Danielle with your questions, or for a free consultation with Dr. Girgis, and learn what exciting improvements can be accomplished!

You may be wondering why you waited so long to treat yourself to this simple, yet remarkable improvement so now's the time to let us help you achieve a magnificent smile!
