

Find the child who doesn't deserve to be healthy.

It's an unthinkable thing to ask, isn't it?
 Every child on this page, in this country, and on this planet deserves to be healthy.
 Problem is, they're not all healthy. And that has to change.
 At SickKids, we're doing everything within our power to make it happen.
 We care for over 95,000 patients every year.
 We do open heart surgeries on babies small enough to fit in the palm of your hand.
 We correct terrible deformities. Cure cancers.

And treat massive burns on little bodies.
 We've invented treatments that twenty years ago people would have dismissed as science fiction. Treatments that continue to have a profound impact on the lives of children.
 And frankly, we couldn't have done it without you.
 Your donations have led to discoveries that have meant less pain for children, a higher survival rate, and less time in the hospital.
 You've funded life changing equipment and facilities

and enabled us to attract the best doctors, researchers and nurses in the world.
 And while it's true we've come a long way, we've still got a long way to go.
 Which is why we continue to need your help.
 So please call 1-888-4-SICKKIDS or visit our website at sickkidsbelieve.com and give generously.
 Because every child deserves to be healthy.
