Spartan hockey girls hope history can repeat itself

Good start vaults Stouffville Secondary into first place in York

BY MIKE HAYAKAWA Staff Writer

The Stouffville District Secondary School Spartans girls' varsity hockey team set a high standard last year after claiming the Ontario Federation of School Athletic Associations AA silver medal.

Raising the bar to a near elite status might appear to be a monumental task for this year's Spartans' squad to attain.

But so far, they are on the right track. Through five York Region Athletic Association regular season contests, the Spartans are undefeated, posting two wins and three ties, including a pair of 1-1 draws over the last week against Aurora High School and Markham District High School.

Although the club lost some key players from last year's squad, Spartans' head coach Dan McConnachie feels his charges can contend for the YRAA title.

"I think our chances to win are as good as any others in our loop. There are any number of teams who could win it all. Sacred Heart is very good as are the teams from Aurora and Markham. We have had close games against all three that have resulted in ties," he said.

While the Spartans did lose some

key players from last year's club, they also retained some valuable performers including forwards Hayley Hughes, Heather Hughes and Ashley McLellan, goalie Liz Knox, who attended the recent under-18 girls' national championships in British Columbia.

Most pleasing to McConnachie though, has been the play of some new faces who have stepped to the front.

McConnachie was quick to emphasize that all of the players have contributed to the club's early season success.

This, he feels, will make his club better in the long run.

"No one player stands above the rest as they've all contributed key plays from timely scoring to great defensive coverage to key saves. Since no one player stands above the rest in some respects this actually makes us a better team as we are not depending on the performance of one player for our success," he said.
