SAFETY RECALL OF MOTOMASTER HOTWASH WINDSHIELD WASHER FLUID HEATER

Canadian Tire is conducting a voluntary safety recall of the Motomaster HotWash Windshield Washer Fluid Heater (Canadian Tire product number 21-0020-2) due to a manufacturing defect. It has been determined that a small number of units contain a defective relay that may result in the relay sticking, causing the product to overheat and smoke.

While there have been no reported incidents causing injury, Canadian Tire is asking customers to discontinue the use of this product immediately and to call 1-866-670-9962 to find out if their unit is included in this recall, and to receive a free replacement unit. Customers may also return the product to their local Canadian Tire store for an exchange or full refund.

How the unit can be identified:

This recall affects a small number of units that can be identified by looking at the outer casing of the product for an identifying mark. If the product contains the words "patent pending" they are not defective and are not included in this recall. If the wording **does not** appear on the back of the product, then these products may be defective and customers should call 1-866-670-9962 to determine if they are included in the recall.

May be defective

Not defective

Call 1-866-670-9962 for more information
