Karyne also explained that Debbie's original colour didn't help her complexion, but now her look radiates more life, is shinier, healthier, and adds vitality to her skin tone and eyes.

"Everyone at my work loves the colour and said I look a lot younger"

Freelance makeup artist Francine Colangelo, who is affiliated with Great Lengths, completed the final phase of the makeover. Francine created a look based on Debbie's sharp blue eyes, and applied four colours to accentuate the four shades within the hair.

"I used auburn and gold, mixed with brown, and a green to emphasize the eyes," explained Francine. "I also used an earthy red, a warm colour to match her complexion."

A warm peach was then used

for the face, and a soft coral with a finishing gloss over top was applied to the lips.

After her transformation, Debbie has been thriving on the compliments and attention of her friends, and said her husband was shocked.

"Everyone at my work loves the colour and said I look a lot younger," she said. "Best of all, the cut is very versatile and I can wear it four different ways."

Debbie also described the salon as very friendly and welcoming. She explained that during past experiences at other salons, she was often not made to feel comfortable. However, all that changed after experiencing Great Lengths.

"At Great Lengths you are made to feel welcome, are given coffee, and plenty of friendly conversation," explained Debbie. "The stylists actually talk about what they are going to do, and explain things

as they're going. This way I know what's happening, and understand how to recreate the look on my own."
