Pur Element Himalayan Sea Salt - With 64 Elements

- Genuine Himalayan salt is 100% Organic & is the most beneficial, potent salt available on this planet!
- No other type of salt in this world can compare, including any of the many varieties of sea salt.
- It is hand mined without explosives to retain its original, natural goodness.
- It was formed over 250 million years ago!
- It is completely pristine and natural without the environmental damage of today.
- There is no need to put it through purifying or processing measures like regular table salt and current sea salt that strips natural minerals from the salt and structurally ruins it!
- It contains the original elements from the ancient seas.
- Original Himalayan Sea Salt is essentially sea salt as it once was thousands of years ago-before oil tanker accidents, elevated mercury and cadmium levels, and unrefined. All its original goodness is retained in the salt.
