

Mennos off to eliminations

The Stouffville Mennos tuned up for their participation this weekend in the provincial intermediate elimination championships in St. Thomas by winning two Oshawa City and District Fastball League contests.

Playing in Markham Monday, the Mennos received a stellar relief effort from Paul Boynton, who tossed four innings of shutout ball, in a 6-2 win over the Majors.

Leading 2-0 through two innings, the Mennos padded their lead to 6-0 in the third, buoyed by a three-run homer by Jeff Broadaway.

The Majors accounted for their two runs in their half of the third inning off starter Byron Baranieski.

With the Majors mounting a potential rally in the final frame, the Mennos received a clutch defensive play by Rich Burkholder, who made a great pivot on a double play, to help end the contest.

Last Thursday, Boynton delivered a run-scoring single in the bottom of the

seventh inning to lift the Mennos to a 7-6 win over the Toronto Indians.

Trailing 2-0 after a half inning before a large gathering at Memorial Park, the Mennos tied the game in their half of the inning on a two-run triple by Scott Evans.

After the Indians scored three runs in the third to regain a 5-2 lead, the Mennos responded with a run in the third and two in the fifth on a two-run homer by Evans to tie the game at 5-5.

A run-scoring single by Chris Burkholder in the sixth inning enabled the Mennos to take a 6-5 lead.

Entering the game with just one loss, the Indians tied the game in their half of the seventh inning and set the stage for the Mennos' final at bat.

Baranieski won the game in relief of Evans, who surrendered the first two runs in the first inning and then moved to play left field.

Now 12-4 on the season, the Mennos' first game in the eliminations will be against Sebringville Friday at 6:30 p.m.

Gibson runs off with top honours

Hayden Gibson led a contingent of participants from the Stouffville-based York Region Runners Club at Saturday's Minor Track Association provincial championships at York University after being first to cross the finish line in the atom boys' 400 metre race.

The 11-year-old Stouffville resident won the event with a personal best time of 1:05.4.

Also competing in the 200m, Gibson placed fifth.

Among other results posted by club members, Josh Herrington claimed a bronze medal in the senior boys' 400m

after being clocked in 59.07 seconds. Herrington also finished sixth in the 200m.

Kate Schlassler placed seventh in the senior girls' triple jump.

Adrian Gavrilov finished eighth in the atom boys' 800m in a time of 2:46.

In the tyke division, Mark Gavrilov was fourth in the boys' 400m and the 800m.

Halle Ashby received ribbons in the 100m girls' sprint where she had qualified for the finals and placed fourth.

She also finished fifth in the long jump.

West Nile Virus is in Ontario

Hot humid weather + Rain = More mosquitoes

Some mosquitoes carry West Nile Virus and their bites may lead to West Nile Virus infection.

There are 57 different types of mosquitoes in Ontario, but not all species carry the virus. York Region's mosquito control program is aimed at the species that can carry and spread the virus to humans.

You have to be a mosquito expert to tell the difference.

Can you tell the difference between a *Culex pipiens* and a *Psorophora ferox* mosquito? If not, follow these easy steps to protect yourself and your family from West Nile Virus.

- Clean up areas of stagnant water around the house where mosquitoes like to breed, such as in pool covers, flower pots, children's pools, old tires and birdbaths.
- Cover up when you go outside, especially if you go out between dusk and dawn when mosquitoes are most active. Mosquitoes are attracted to darker, more intense colours, so wear light-coloured clothing. For extra protection, wear long-sleeved shirts or jackets, long pants, socks, and tuck your pant legs into your socks.
- Use insect repellent when outdoors. Consider using a federally registered personal insect repellent on exposed skin, such as one containing DEET. A light coating works well. Follow all the label directions including restrictions for use on young children and the maximum number of applications per day.

For details, read the Health Canada pamphlet *Safety Tips on Using Personal Insect Repellents* at www.hc-sc.gc.ca/pmrarla/english/pdf/pnotes/deet_e.pdf or visit the Ministry of Health and Long-Term Care at www.health.gov.on.ca/english/program/pubhealth/westnile/wnv_mn.html
