

## BEST OF THE WEB YORKREGION.COM SOUND OFF

**We asked:** Do you think eliminating one report card a year from elementary schools is a good idea? Why or why not?

**You said:** Why not? if parents are interested and engaged in the process of educating their children, two report card per school year is sufficient. Ask any teacher what is now involved in preparing report cards and the amount of time involved. The time is better

spent with students, invested directly in the classroom. This has to be good for students.

**You said:** I don't see a problem with it. Parents are required to return the third page of the report and a very large portion of parents neglect to do that. I feel many parents don't even read the important comments made by teachers, just the marks. Parents who are involved with their children's education will continue to be, those who aren't won't change.

## WE'RE PROUD TO SERVE YOU

This summer two storm systems, two weeks apart, hammered large parts of Ontario with winds in excess of 120 km/h and, according to Environment Canada, eight tornadoes, leaving untold devastation in parts of the province.

More fallen trees than could be counted, broken poles and hundreds of kilometres of downed lines meant a massive amount of work had to be done before power was restored to all of our customers.

Some of you would be without power for more than a week; your lives turned completely upside-down.

And through it all, you waited. Patiently. And somehow, you still found it in yourselves to support our crews. Every offer of a bottle of water, dinner at the local church, the offer of beds when no other accommodation could be found, or even a friendly honk of a horn meant everything to us. We are overwhelmed by the generosity you and your communities have shown us.

On behalf of Hydro One and all its employees, I would like to express our sincere thanks to you for your patience and kindness.

We have the best customers.

Sincerely,

Tom Parkinson,  
President and CEO  
Hydro One Inc.
