Ken Smurthwaite Heating Ltd.

In today's marketplace, choosing the right combination of heating and cooling equipment for your home comfort needs is critical.

Ken Smurthwaite Heating Ltd. has been bringing heating and cooling solutions to Stouffville, Uxbridge and area since Ken Smurthwaite opened for business in 1975. Today, Ken and his son Doug continue to provide

dependable, superior quality products and service at competitive prices.

"What we stand for is a quality job for a fair price," says Doug. "We believe in building a strong bond with our customers." In addition to heating and cooling solutions, the company provides sales and installation by licensed technicians and prompt service for all

Smurthwaite Heating customers. "We service what we sell," he says, adding that installers and service technicians meet only the highest training standards.

Ken Smurthwaite Heating Ltd. is an authorized dealer for Tempstar products, an industry leader. Doug has spent more than 20 years in the industry and is a fully licensed Air Systems Design Technician. He has seen many changes, particularly in the area of energy efficiency. "High-efficiency furnaces are so much more cost effective than they were 10 years ago and operate at 92 to 95 per cent efficiency. Those with DC (direct current) fan motors use about a third of the hydro of an AC (alternating current) motor. Prices have also come down considerably in that period."

Choosing Ken Smurthwaite Heating Ltd. Will satisfy your needs because they provide dependable products and excellent after-sales service. That's their commitment to you. Ken Smurthwaite Heating Ltd. is located at 6402 Bethesda Road in Stouffville and can be reached by calling 905-640-1428 or 905-852-5934 in the Uxbridge area.
