## Treat yourself to the caring, professional services of Neece Electrolysis & Esthetics

A visit to Neece Electrolysis & Esthetics leaves one feeling beautiful, both inside and out. For more than 15 years, owner, Angela Martino, has provided professional hair removal and esthetic services for women, and her caring, personal attention has won her a loyal following of repeat and referral clients.

"I make people feel very comfortable and am sensitive to their questions and concerns," says Angela. "I offer a free consultation, where I full explain the procedure, and then customize a program that will give my clients the most effective results."

Clients of Neece Electrolysis and Esthetics no longer have to endure the cost, bother and discomfort of plucking, shaving and waxing, which in some cases can actually stimulate hair growth. Electrolysis is still the most proven method for permanent hair removal. Neece Electrolysis' Apilus technology can safely and effectively remove unwanted hair from the face and entire body. Sanitary practices are strictly adhered to, including the use of disposable needles. Whether you suffer from a hormonal condition, or simply want the removal of unsightly hair, Neece Electrolysis uses the latest state-of-the-art technology and techniques to provide quick results.

"Hair growth is caused by many things, including hormonal and thyroid conditions, medication, heat and stress," Angela says. "Appointments are spaced, depending on each client's rate of hair growth. The object is to no longer need the service, because the hair is permanently gone."

Angela's electrolysis technology and technique improves on previous electrolysis methods. A fine probe is inserted into the hair follicle and two different currents shoot through the needle. The hair follicle is deprived of nourishment and the hair root dies. The procedure is painless and resembles a tingle or heat sensation that clients soon recognize and get used to.

Clients of Neece Electrolysis & Esthetics are

thrilled with the success of their treatments and the added benefit of a boost in self-image. "My clients are extremely happy with the results and they walk away with much better self-esteem," Angela says. "I receive a lot of referrals from clients who go on to tell others about their successes."

The immaculately clean premises of Neece Electrolysis & Esthetics are complemented by a warm and friendly atmosphere that immediately makes clients feel relaxed and welcome. The Neece Electrolysis team includes nail technician, Lori Masters, who brings a wide range of services and expertise to the facility.

Neece Electrolysis & Esthetics is open Tuesday to Saturday, and offers flexible hours to accommodate clients' schedules. Enjoy the gift of an improved self image by the expert staff at Neece Electrolysis & Esthetics today!

Neece Electrolysis & Esthetics is located at 5871 Highway 7, Suite 205. To book an appointment, call 905-294-7253.

## Beautify your home with the expert team at Real Home Improvements

For renovations and home improvements, more and more people are turning to the expert services of Real Home Improvements. Owner and operator, Doug Hutchinson, has over 20 years' experience in the renovation industry, as well as a high ethical standard. Homeowners have peace of mind, knowing that they are dealing with a legitimate contracting firm that is committed to meeting and exceeding clients' expectations.

"I'm not happy until my customer is happy," says Doug. "I take a lot of pride in my work, which is why so many clients call us back for repeat business."

As a member of the Toronto Board of Trade, the North York, Scarborough and Etobicoke Chamber of Commerce, and the Better Business Bureau, Doug knows the importance of providing homeowners with workmanship that they can trust. The company has a staff of 25, and also works with the most skilled sub-trades, whose expertise is matched to the job at hand. Real Home Improvements is fully insured, has Workmans' Compensation, and ensures that all building codes are met.

"I sub-contract to reputable trades, some of which have worked on my own home," Doug says. "I treat a client's home as though it is my own, and this is the Real Home Improvements difference. The trades that I work with share this commitment to excellence and know that I am very particular in my expectations."

Real Home Improvements' area of experience and expertise is extensive, and ranges from painting a single room to designing and completing a major renovation. New kitchens, bathrooms and rec rooms, as well as replacing all types of flooring, are just a sampling of the myriad of jobs that the company takes on, day-to-day.

For the exterior of homes, Real Home Improvement can turn your backyard into a private oasis, complete with a new deck, patio,

fencing and ponds with waterfalls. The company installs interlocking brick and aluminum siding, and replaces roofs that come with a 10-year guarantee on labour.

After an initial consultation with a homeowner, Doug develops a budget and timeline for the project. A detailed contract provides transparency so that homeowners know what to expect and are not presented with any surprises. "Sometimes there are unavoidable delays that affect the schedule of a project," Doug says. "But I won't cut corners to meet a deadline. I'm up front with clients and explain the situation, so that they are always kept informed."

Doug's years of practical experience and keen eye about the functionality of space makes him the ideal consultant in designing a new project. "I work with a client's wish-list and will make suggestions to come up with a better design. It's important to have a functional plan that maximizes space and considers the living habits of homeowners."

Real Home Improvements can be reached at 647-295-7681, or visit www.realhomeimprovements.com.
