## Grow-op charges for Stouffville man

BY JOE FANTAUZZI  
Staff Writer

A Stouffville man is among those facing charges in connection with a GTA-wide marijuana distribution network, police announced yesterday.

At press time, at least 10 people from across the GTA had been arrested following a joint forces investigation dubbed Project OClone, which was launched early in 2006 by Toronto police and the RCMP.

The task force discovered a number of homes throughout the GTA that had been converted to pot grow-ops, police said.

Police seized nearly 25,000 marijuana plants from grow-ops during the

investigation.

Police from Peel, York and the Canada Border Services Agency assisted Toronto and RCMP officers during the case.

"Marijuana grow operations can occur in any area as these arrests have shown," RCMP Supt. Ron Allen, the officer commanding the GTA drug section said in a statement.

Zhi Ming Huang, 45, of Stouffville was charged in connection with the network and faces charges of producing marijuana, possession of a controlled substance for the purpose of trafficking and theft of electricity.

A warrant has been issued for Hoi Wah Ho, 52, of Richmond Hill in connection with the case.

### Severe Neck or Back Pain?

It appears that a technology exists that may show hope for people suffering from herniated, bulging and slipped discs, cases with arthritis and degenerative back conditions, and cases that may be on their way to elective surgery.

Now there is a back pain guide that your doctor may not even know about that you can receive for free entitled, "The Severe Neck, Back, And Sciatica Pain Guide" that reveals a relatively new surgery free, non-invasive technology designed to treat severe low back, neck and leg pain along with herniated and slipped discs.

So if you are wondering if there is anything else at all that can be done even though every treatment you've tried may have failed then you should order the free guide entitled "The Severe Neck, Back, And Sciatica Pain Guide".

Discover why your back treatments have failed and a technology relatively new to Canada that may provide a solution. For your free copy, call 1-888-271-8605 (Toll-free 24 Hour recorded message) or go to: <http://www.getbackreport.com>
